## MILAM COUNTY HEART DRIVE BEGINS

### Heart Funds Drive Opened Monday

The 1951 Heart Fund campaign opened in Cameron Monday with the distribution of heart coin containers throughout the city by Joe O'Neil, commander of the American Legion, who will sponsor the current drive.

The nationwide goal to combat the leading cause of death—heart disease—is \$8,000,000.

Thanks to increasing public awareness, greater progress has been made against heart disease in the past decade than in the preceding half century. The most significant recent advances have included the discovery of new drugs and new methods of surgery. Many lives being saved today would have been sacrificed to heart and blood vessel diseases a few years ago. Much suffering and disability are being prevented or lessened due to new facts uncovered by research.

However, medical men are still probing for the causes underlying 90 per cent of the heart disease—represented by rheumatic fever, high blood pressure, and hardening of the arteries. Our help can hasten the day when these facts become known, making possible the development of new methods of prevention and control.

Despite the gaps in our knowledge there is still a tremendous job to be done in setting the presently known facts before the public in order to eliminate groundless fear and avoid needless disability. Such enlightenment can encourage the public to seek prompt treatment to check or eliminate groundless fear and avoid needless disability. Such enlightenment can encourage the public to seek prompt treatment to check or eliminate heart damage. It can spur measures of rehabilitation, vocational training, better diagnosis and care.

The Heart Association, has directed the fight against heart diseases for more than a quarter of a century. Today it is the only voluntary health organization devoted solely to cardiovascular advances.

By becoming stockholders in this going concern, we can truly provide "New Hope For Hearts." We urge our readers, therefore, to invest generously in the 1951 Heart Fund.

### Special Agent Makes Report

Cotton allotments have been turned lose this year to producers since the government claims there is a need of 16,000,000 bales. Many of the large farmers of the southern states and Mississippi Valley as well as other parts of the United States are planning to increase their acreage over the 1950 allotments.

Some farmers in Milam County will go all out for the increase in acreage, but many will stay within their usual limits as they have seen the disadvantages of over-production.

The price during the 1950 season has been exceptionally good and an over production of King Cotton, a decline in the price would be expected. The government will probably have a support price on this commodity this year.

Secretary of Agriculture, Charles F. Brannan said sometime ago that it would be set at 90 % of parity as has been the practice in recent years.

A total of 20,2669 bales of cotton was ginned in Milam County from the crop of 1950 prior to January 1, 1951 according to J. H. Barnes, special agent.

Mr. Barnes stated in this report that this figure is approximately 5,000 less than the report of January 16, 1950 as the total last year was over the 25,000 mark.

This decrease in production is chiefly due to the acreage reduction as well as the drouth and heavy insect infestation.

Mrs. Meta McCown who had been in St. Edward Hospital for treatment has returned home and recuperating nicely.

## FARM BUREAU DAY IS SET FOR FEB. 15

### Army Wants 80,000 Men In April Draft

WASHINGTON, Feb. 1—Department of Defense called on Selective Service Thursday to supply 80,000 men for the Army in April.

Identical calls for 80,000 men were issued previously for January, February and March. Altogether, the draft requests have totaled 530,000 men since inductions were resumed last fall. All have been for the Army. The Defense Department said the Navy, Marine Corps and Air Force do not plan to draft any men in April.

Work on a proposed legislation to lower the draft age to 18 and extend the period of service from 21 to 27 months was at a temporary standstill Thursday. Members of the House and Senate armed forces committees were preoccupied with General Eisenhower's report on his tour of this nation's Western European allies.

However, some lawmakers found time to discuss the possibility of creating an American foreign legion to strengthen the hand of the Western world against possible Soviet aggression.

### Rodent Destruction Heavy In County

Milam County farmers who are complying with the Rodent Control Campaign sponsored by the Farm Bureau will be given DDT, free of charge at the Milam County Health Unit when they purchase the Warfarin Rat bait at the Farm Bureau Office during the present campaign.

The Farm Bureau and the Health Unit are working together in an effort to bring rodents under control in this county as farmers over the entire county reported in a number of cases the damage and destruction that rats have been responsible for. is heavy.

Over 500 pounds of the Warfarin Rat Bait has been sold at the local Farm Bureau Office, it was reported by Mrs. Jessie Mae Wimberly, secretary. A total of 400 pounds at Thorn-dale with only 200 pounds remaining to be sold here at the Cameron office.

Farmers over the county have reported that the bait has been very effective in its purpose toward reducing the number of rodents on the farms and business establishments in the city have used the bait with great success and report a heavy toll has been inflicted on the rat population of the city and county.

These campaigns should be planned and sponsored throughout the entire year in order to keep rodent destruction down to a minimum as it has been indicated by a number of doctors, specialists and other authorities that Typhus Fever prevails in areas that are heavily infested with rats.

Farmers in the county as well as the businessmen are becoming educated to the fact just how destructive they can be to storage facilities, premises and buildings.

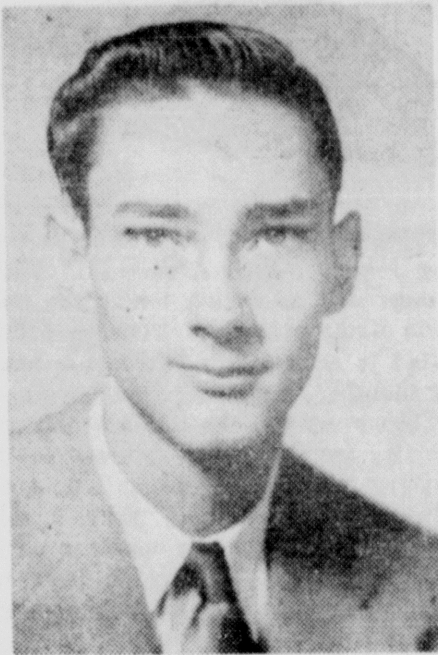

Over a period of years the destruction caused by these rodents amounts to thousands of dollars and through these campaigns they can soon be brought under control.

### SON THE THE CHANDLERS

Mr. and Mrs. Tom Frank Chandler of Portland Maine announce the arrival of a son born Tuesday, January 30, 1951. The baby weighed eight pounds, three 1/2 ounces and has been named, John David. Grandmother is Mrs. J. E. Chandler of Cameron.

Friends of Mrs. Giles Burnett regret to learn she is a medical patient in Newton Memorial Hospital and wish her a speedy recovery.

REV. JAMES D. RECORD

Rev. James D. Record recently accepted a call from the North Central Church of Christ as minister.

Rev. Record began his duties with the church in early December and has made many friends here during this short period of time. He is a native of Louisville, Kentucky where he received his elementary education and attended high school in several different Texas towns. He began preaching at the age of fourteen, and besides Kentucky, he has preached in Illinois, Kansas and quite extensively in West Texas.

In September of 1947 he entered Abilene Christian College, where he recently completed his work for the degree of Bachelor of Science in Christian Education.

Rev. Record participated in numerous religious activities, being a member of the Mission Study Class and the Evangelistic Forum. He served as leader of the latter group.

In college he was also a member of the Anti-Cancer, Anti-Heart Disease Society, two geographical clubs, the Radio Workshop, and was newscaster and announcer for the campus radio station, KACC. His father, also a minister, is now minister at the First Church of Christ at Iola, Kansas.

Rev. Record was a visitor at the Herald Plant Tuesday and said he was very grateful for the fine reception the Church members and townspeople have given him and wishes to express his sincere desire to take his place in the community and to serve it to the best of his ability. He invites those who do not attend church anywhere to come and worship at his church.

### W. A. Bandy To Be Main Instructor

The Texas Engineers Extension Service of A & M College and the State Board of Vocation Education Cooperating are to conduct a Water Works Short School in Cameron, it was announced by L. W. Smith, manager at the Cameron Water Department.

This School will begin Monday, February 12 and continue through March 3 and will be held in the office of the Milam County Health unit, three nights a week, Mr. Smith said.

The purpose of the School is to improve the water system and guarantee the people a safe potable water supply.

W. A. Bandy, Itinerant Field Instructor from the Extension Service at A & M College, will be the instructor.

Mr. Smith has been in Cameron since November 1, 1945, and was employed by the Community public Service until the city took over the Water Company last July and is now an employee of the city, as manager of the department. He has been associated with a number of Water Companies in Central Texas for the past fifteen years and was manager of the Water Department at the Bluebonnet Ordnance Plant at McGregor.

### Lone Star Gas Company Grateful For Assistance Saturday, February 3

Quick work and coordinated efforts of Lone Star Gas Company personnel combined with the help and cooperation of customers, radio stations, newspapers, police and others made possible rapid resumption of normal gas service on Saturday, February 3, after Lone Star's 16-inch major transmission line broke a mile north of Temple. Cause of the break was laid to the "Continuing cold spell which set up contraction in the line and pulled it apart."

The break occurred at approximately 5:20 a. m. and within seven hours the line had been repaired and placed in normal service. The complete undertaking was carried out under emergency measures which included radio appeals for "all customers.....to cut gas consumption to the barest needs."

"The immediate response to our critical situation and the fast action that followed set up the difference between failure and success," said A. P. Rowland of Waco, Lone Star's Division distribution superintendent. "We appreciate very much the work of all persons who had a hand in this important undertaking to protect gas service and we owe our customers a debt of gratitude for their consideration and understanding under the voluntary curtailment order."

"Our distribution, pipe line, dispatching department and other employees came through with loyalty and determination, reflecting Lone Star Gas Company's obligations as a public service organization. They acted immediately, having one thing in mind—our customers. Their actions were backed by years of experience and the ability to use good judgement in an emergency. The combined efforts of all concerned kept gas service intact for all but about three per cent of the approximately 18,000 customers served by the line."

Mr. Rowland said that Thorndale's 200 customers and some customers in Temple, Belton and Killen were without gas for a comparatively short time. Although gas pressure was low as a result of the break, service was kept intact at Rogers, Buckholts, Cameron, Rockdale, Little River, Holland, Bartlett, Granger, Taylor, Thrall, Hutto, Georgetown and Round Rock. No towns North of Temple were affected by the break.

The commanding officer at Fort Hood near Killen helped to protect gas supply for other points where he ordered a general curtailment of gas at the Fort. He directed the valve to the line serving the military center turned off even before the official curtailment order was received (turn to page twelve)

### Court House Damaged By Breakage of Pipe Due To Cold Weather

Offices were damaged at the Court House late Saturday, according to Sheriff Carl C. Black.

A pipe burst in one of the rooms on the third floor sometime during the recent cold-weather and as moderation began Saturday, the leak was discovered Saturday evening.

The Sheriff's Office and the County Auditor's Office were the only two offices that received considerable damage and it was indicated that these offices would probably have to be replastered since the ceilings and walls were damaged.

Sheriff Black, several plumbers and other workers soon had the broken pipe repaired and everything was back in order Monday morning. It was reported that a number of water mains in the downtown area also broke due to the severe cold weather last week but have been repaired.

### Annual Event To Be February 15

The Milam County Farm Bureau will hold its Annual Farm Bureau Day on Thursday, February 15, at the Simon-George Memorial Hall, it was announced by Dennis Klein, president.

This annual activity is the main event on the Farm Bureau Spring calendar and creates county-wide interest each year. A special program is being planned for the day and the program is scheduled to get underway at 10 A. M. and continue through 4 P. M.

An interesting program will be arranged with a number of out-of-town guests speakers as has been the custom in the past years, and the usual basket dinner with plenty of hot coffee will be one of the main features of the day. Several musical numbers are scheduled with Miss Shirley Horstman as featured vocalist.

The Milam County Farm Bureau was organized almost four years ago and has a present membership of approximately 800. Farmers are realizing the benefits of being organized and through organization only can farmers compete with union labor and organized industry.

All members of the Farm Bureau are to bring a well filled basket and invite their neighbors and bring enough food for them also. A varied program of fun for the old and young will be provided.

The Bureau is giving two registered sow pigs to the lucky boys during the event and to be eligible for the contest, the boy must be the son of a Farm Bureau Member, he must sign an agreement with responsible parents, and may either sign at the Farm Bureau Office or at the Simon-George Hall on February 15, and does not have to be present at the drawing, in order to win.

A large crowd is being anticipated for the annual event.

### Col. P. A. Jaccard Inspects Unit Here

Battery C, 649th Anti-Aircraft Artillery Battalion, received its annual Federal inspection on last Tuesday afternoon and evening, Captain Rudolph Michalka has reported.

Col. Jaccard, representing the Inspector General's office Fourth Army Headquarters, Ft. Sam Houston, was the inspecting officer. He explained the Battery's records and equipment in the afternoon and inspected the troops in ranks during the two hour drill period that night.

Col. Jaccard stated that he will make a written report on his findings, but indicated he was pleased with the showing the Battery made.

Also present during the Tuesday evening drill period were a number of National Guard and Regular Army officers. They included Lt. Col. Olin F. Brewster, Commanding Officer of the 649th AAA Bn, Capt. Wilds, Capt. McBurney, Major Haenel and M-Sgt. Charles Walker.

Commenting on another recent development, Capt. Michalka said that Battery C will begin the first of its week-end drills on Sunday, Feb. 11th. These will be six-hour drill periods from 1 to 7 P. M. and will be in addition to the regular two-hour periods held on Monday evening. The National Guard's stepped up training schedule calls for twelve of these week-end drills to be held before Battery C, with other units of the 49th Armored Division, attends summer camp in June.

The public is welcome to visit the armory during the Sunday afternoon drills and observe the units training and equipment, Capt. Michalka said.

Mrs. Jack Pachen and son of Houston are visiting in the home of Mr. and Mrs. Marvin Pratt this week.

### Victory Substantial In Good Majority

In the second progressive step with in a period of one year, property owners in Cameron went to the polls on Tuesday, February 6 and voted overwhelming approval of an issue of \$50,000 in revenue bearing bonds for the purchase of the right-of-way on Highways 36 and 190.

The vote was approximately 4 to 1; for the bonds, 545 and against the bonds 150.

Opposition of the proposed issue of the bonds failed to muster anything like strength that their efforts indicated might be forthcoming. On the other hand a vast majority of the tax payers who cast votes had cast aside all unfair tactics and struck a blow for the progress of their city.

Able handling the election were election judge, Leo O'Neill, Dan Gunn, assistant judge, Miss Mary Burns and Mrs. R. W. Bennett, clerks.

Meanwhile, the property owners throughout the city may rest assured that their taxes will not be increased one cent, and since the bond issue has carried progress on the right-of-way should soon get underway, and the prospects of good roads through the county looks bright.

The Junior Chamber who backed the bond issue with their time, efforts and money should be commended for their interest in this progressive venture for the City of Cameron and during the past two years the Junior Chamber has been responsible for as well as advocating the two bond election that concerns the progress of the town.

### Hotel Window Fall Kills Former Waco Man; Well Known Here

Mr. and Mrs. Stanley Swift left Cameron Tuesday after receiving word of the death of John Gray Kendall 43, last male member of a family prominent in the history of Waco. Mr. Kendall met death in an accidental fall from his hotel window early Tuesday morning.

Mr. Kendall, who was a hero in the U. S. Navy during World War II and a longtime faculty member at Hill School for Boys, Pottstown, Pa., had gone to New Haven in his capacity as alumni director of Hill with a party of school's officials Monday afternoon.

Sometime during the night, Associated Press accounts from New Haven said, Mr. Kendall apparently went to the window of his room in the Taft Hotel to open it for fresh air preparatory to retiring for the night. Dr. Sterling P. Taylor, New Haven medical examiner, said Mr. Kendall apparently fell from the window, which was on the fourth floor. His body was discovered at 7:35 a. m. Tuesday.

Mr. Kendall shared the room with Walter H. Lemley, master at Hill School. They had gone to New Haven to check on the progress of former Hill students now studying at Yale.

Lemley told New Haven police, according to the AP, that he returned to the room at 4 a. m. and found the lights on and the window open, and assumed that Mr. Kendall had decided to spend the night in the room of some of the other men in the Hill delegation. When Mr. Kendall could not be located, his body was found on the College Street side of the hotel.

Funeral arrangements have not been made.

Upon receipt of the shocking news of Mr. Kendall's death, his brothers-in-law, Walter B. Dossett of Waco and Stanley Swift of Cameron, with Mrs. Swift, his sister-in-law, departed for Dallas to join Miss Rosa Drane Kendall, one of Mr. Kendall's daughters, a student at Hockaday School. The four went to Pottstown, Pa., by plane last night to meet Mrs. Kendall. She was due there from New Haven, where she had gone after learning of the tragedy.

Mr. Kendall was the son of the late Mr. and Mrs. Ben G. Kendall. His father was a leading lawyer for more than a generation.

Born in Waco, John Gray Kendall attended the public schools and graduated from Hill School. He attended University of Texas, then received his degree from Baylor University. Dur-

(turn to page twelve)

TO: Neal Embry, Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Milam County at the Court House thereof, in Cameron, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 5th day of March A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 13th day of December A. D. 1950, in this cause, numbered 13327 on the docket of said court and styled Norma Embry Defendant.

A brief statement of the nature of this suit is as follows, to wit:

Plaintiff alleges that she and defendant were lawfully married to each other on or about the 19th day of July, A. D. 1950 but separated on or about the 24th day of October, A. D. 1950, since which time they have not lived together as husband and wife. That plaintiff has been a resident of Milam County, Texas for more than six months prior to the date of filing the petition for divorce and of the State of Texas for more than one year; that defendant, shortly after his marriage to plaintiff began a course of cruel treatment which continued up until the date of their separation; that defendant unjustly accused plaintiff of misconduct with other men, and frequently cursed and abused her. That no children were born unto the parties as a result of said marriage, and there are no community property rights to adjust or settle between them; plaintiff asks that a divorce be granted to her because of the acts of cruel treatment on the part of the defendant, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Cameron, Texas this the 17th day of January A. D. 1951.

Attest:  
GRADY ALLEN, Clerk, District Court, Milam County, Texas.

(SEAL)

## Julius Bartek Trains At Great Lakes, Ill.

Julius E. Bartek, seaman recruit, USN, of Route 1, Burlington is training at the world's largest Naval Training Center, Great Lakes, Illinois.

Recruit training is the sharp break between civilian and Naval life in which the new navy men learn the fundamental principles of the Naval service.

In the course of his training the recruit is taught seamanship, Navy customs, terms, basic ordnance, gunnery, signalling and navigation.

Upon completion of his training the recruit is assigned either to units of the Fleet or to a service school for specialized training.

## Ice And Snow Cause Two Injuries Here

Two persons were taken to St. Edward Hospital Thursday suffering from falls due to the ice and snow.

Henry Shuffield is resting well in the hospital following a fall at the home of his son, Gilford Shuffield who lives north of Cameron on North Fannin. Mr. Shuffield fell from the ice covered porch on to the steps of the home and suffered a fractured hip.

Carl Micham who fell on the street here in front of the Flinn Cotton office was treated at the hospital and released. He was not seriously injured.

## Slight Decrease In This Years Receipts

The number of poll tax payments received at the City Hall through January 31 is 1214, according to W. H. Stafford, City Secretary.

This figure is approximately ninety percent of the number paid last year. The total amount paid last year was 1348, thus making the figure 134 short of the 1950 tabulation. The office at the City Hall stayed open late Wednesday night in order that late tax payers would have a chance to make payments.

Valter White, County Tax Collector, reported that around 3800 poll taxes had been paid at his office and this figure was far below the amount received for the year 1950. The number received in 1950 neared the 5,000 mark and since this is an off election year and no Democratic Primary, this could be expected in the county, but here in the city, the important Bond Election is scheduled for next Tuesday and later in the spring three places on the Board of Aldermen will be voted on the First Tuesday in April.

This year the places now held by aldermen Johnny Andres, Bob Terry, and Milton Schiller on the City Council will be voted on. There is no indication at this early date as to whether these men seek another term as a member of the official family.

The City Council needs men who are interested in the progress and welfare of the city and if something progressive is not done within the next few years, the next census report might show another substantial decrease in population as did the report in 1950.

The council recently voted to issue warrants to purchase the right-of-way which was the cheapest and the quickest way to get construction underway, but the petition that was presented to the council, called for a bond election.

Unless the bonds are voted to purchase the right-of-way, the roads in Milam County will soon become impassable and traffic on Highways 77, 36, and 190 that usually comes through Cameron will be diverted to other routes and therefore Cameron will lose lots of business from a traffic standpoint as well as the many tourists that come through the city for southern as well as northern vacation points.

If the bond issue does not carry, the City Council cannot issue warrants until a lengthy period of time. It is hoped that voters will realize what a progressive movement the voting of the bonds will be for the city and be at the polls on Tuesday to support the issue.

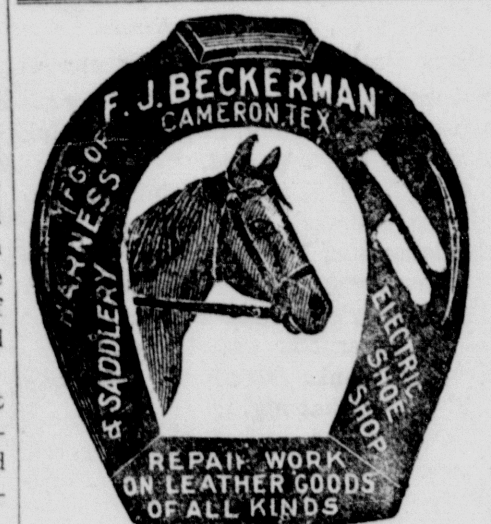

If we want progress, we must demand it through our city leaders and only by the election of men who are interested in the municipal affairs of the city.

### FRUIT FOR SCHOOLS

Apples and grapefruit sections were being distributed this week to lunch rooms in the 10 county food district.

The car load of fresh apples shipped from the State of Washington arrived Monday and the grapefruit sections shipped from Florida came later.

ANY MAKE RADIO repaired. Call 104. PARMA RADIO SERVICE.

## He Needs Your Help!

## Three Enlistments Made This Week

Three enlistments were made in Battery C, 649th Anti-aircraft Artillery Battalion this week, Captain Rudolph Michalka reported Friday.

He listed them as:

Morroee J. Marak, Billy G. Whitaker and Sanley E. Pratt. All were sworn in as Recruits. Marak is a former member of Battery C, having enlisted in the unit two years ago.

Also, he said, Cpl. James D. Leath has been transferred to the Battery from the Inactive National Guard and will resume training with the organization.

Capt. Michalka stated he had no information on the statement in news

dispatches quoting Major General Sidney Johnson, 49th Armored Division commander, as saying that there was little likelihood of the Division being called to active duty within the next six months.

"However, it looks like a break especially for the young fellows in the Battery who are attending school or college," he commented, "since it will give them a chance to continue with their education. We have a number of members who are still in school or college."

## Yoemen And Tigers Split Doubleheader At Belton Friday

The Yoemen were defeated by the Belton Tigers quintet by a score of 33 to 27 Friday night, February 2, it was disclosed by Coach Paul Smith.

This was a nip and tuck game with both teams alternating in the lead throughout the game. The Tigers were leading at the half-time by a count of 20-13 but as the third quarter got underway the Yoemen were challenging for the lead, only to be short seven points of victory when the final whistle sounded.

The Cameron B Team won over the Belton B Team by a nine point margin of 29-20. The team paced to an easy victory, keeping the lead in most of the game. The Cameron B Team has won 21 games out of 22 played this season which is a remarkable record.

In the A Team game Frank Malone was high point man with 11 points and Glen Rosenberg was a close second with 10 to his credit, and the B Game Lincoln Mondrick was high with 9 points and Bobby Biscup was runner up with 7 points.

The Yoemen will meet the Rosebud Panthers in a double header here next Tuesday night at the Yoe High Gymnasium.

## The Bill McIntosh's Parents Of Son

Mr. and Mrs. Bill McIntosh are happy to announce the arrival of William L. Jr., born at the Torbett Hospital in Marlin Thursday, January 25, 1951.

The new son and the mother, the former Miss Henriem Hefley are doing fine and friends in the city are looking forward for the arrival of the new son and the mother in Cameron.

Mr. McIntosh, who is the president of the Chamber of Commerce and a well known civic leader in the city, has been busy this week passing out the cigars. This is the first child for the McIntosh's.

William L. is the first grandchild of Mrs. Henry Hefley of Cameron.

## New DODGE "Job-Rated" Trucks

The trucks that do the most for you!

More powerful than ever! Dodge now offers you the most powerful "Job-Rated" trucks in Dodge history!

Eight engines—94 to 154 horsepower—with power increases as high as 20%!

You get the right power for your job... in the finest performing trucks that ever carried the Dodge name! Yet these new Dodge "Job-Rated" Trucks are priced with the lowest!

**NEW! Smarter styling!** New beauty combined with massive, rugged appearance. New hood line for better road visibility. Roomy new cab interiors in contrasting colors—new comfort with redesigned seats.

**NEW! Easier handling!** Shorter turning diameters than ever before—for even greater maneuverability! More convenient steering wheel angle for greater driving comfort. New worm-and-roller steering gears for easier steering—plus all the ease-of-handling features that made Dodge "The Choice of Champions" in the 1950 National Truck Roadshow!

**NEW! Extra-quiet brakes!** Another Dodge engineering first! New, molded, tapered Cyclebond brake linings contact brake drums with smoother, more even action—practically eliminating brake squeal. Less tendency of brakes to "grab"—and lining life is greatly extended. Standard on trucks 1½-ton and up, except for air brake models.

More than 50 brand-new features including...

**NEW! SMOOTHER RIDE** with new, "Oriflow" shock absorbers; standard on ½-, ¾-, and 1-ton models.

**NEW! EASIER LOADING** with lower ground-to-floor height on all models through 2 tons.

**NEW! EASIER BAD-WEATHER STARTING** with new moisture-proof ignition and high-torque starting motor.

**NEW! MORE ECONOMICAL PERFORMANCE** with higher compression ratio—on all models through 1 ton.

**NEW! EASIER-TO-READ INSTRUMENTS**—now grouped in a cluster placed in front of the driver.

**NEW! TWIN CARBURETION AND EXHAUST SYSTEM** for greater power with economy—available on all high-tonnage models.

**NEW! SMOOTHER ENGINE IDLING** with "hotter" spark plugs; on all models through 1 ton.

A model to fit your job!

ANOTHER DODGE EXCLUSIVE! gyrol Fluid Drive now available on ½-, ¾-, and 1-ton models.

Come in to see the new **DODGE "Job-Rated" TRUCKS** on display Saturday, February 10

From where I sit... by Joe Marsh

## Blue Wins This "Hunt"

Cappy Miller's coon dogs—except for one of them, Old Blue—are about the finest hounds in the county. Blue's too friendly and easy-going to care much about hunting. He doesn't act the way we think a good dog should, so we figured he'd never amount to much.

But a fellow comes around Saturday looking for a good dog to photograph for some advertising. And the dog he picks is Blue! Says Blue's happy, friendly face is just the one to attract people's attention. So Cappy gets more money for that picture than his other

dogs will ever take in hunt prizes.

From where I sit, that should teach us not to look down on humans, when they act differently than we think they should. For instance, maybe you think tea goes best with food. O.K.—but don't size up wrong the man who enjoys a bottle of beer at mealtime.

Like Blue, I guess we're all "different" in one way or another—but that doesn't mean we don't have our good points, too!

Joe Marsh

## YARRELLTON NEWS

By MRS. LENA RUSSELL

Mr. and Mrs. Clarence Colburn attended the Lee Chapman funeral in Rosebud recently.

Charlene Griffin returned home from the Hospital Friday and is improving nicely.

Danie Barrett has been confined to his bed with measles. He was up and able to be back in school this week.

Rev. Ray L. McCloud of Ft. Worth filled the pulpit at Yarrellton church Sunday and that night in the absence of the regular pastor. He spent the day in the Jim Mann home.

Loma Russell visited Ruth Solomon Sunday.

Leroy Franklin was a Sunday dinner guest in the Zackie Griffin home.

Mr. and Mrs. John Lott, Mrs. Ella Clark and Gladys Pittman were Sunday visitors in the home of Mrs. Beatrice and Charles Griffin.

Miss Elba Jean Colburn of Denton visited homefolks over the week end.

Mr. and Mrs. Willard Chapman visited her parents, Mr. and Mrs. John McDonald recently.

Narvell Barrett has the measles this week.

Mr. and Mrs. Robert Massingale and baby of Cameron were Yarrellton church visitors Sunday. Mr. Massingale was formerly of this community before entering the U. S. Service and was a member of the church.

Mr. and Mrs. Harris Little and family of Rosebud were Sunday guests in the Auttis Franklin home.

Wallace Colburn attended the Fort Worth Fat Stock show recently.

Mrs. George Chapman is visiting her daughter, Mrs. Leona Griswold.

Sunday visitors in the Ladis Klapka home were relatives from Temple, Georgetown and Cameron.

Ardell Pagel was in Houston last week and participated in the Stock and Poultry show.

Mrs. Jenie Barrett visited Narvell Barrett Monday.

Mr. and Mrs. James Brown and baby visited her aunt, Mrs. Velma Dobbs Sunday.

Mrs. John Foster was caled to the bedside of her mother, Mrs. Frank Chapman Monday who is in St. Edward Hospital.

Mr. and Mrs. S. E. Brogdon have returned from a visit with their sons and their families in Fort Worth.

Jo Ann Bartek and Matt Zarosky, Jr. attended the fat stock show and rodeo in Houston Sunday.

SHIVERS GREETES ECONOMY COMMISSION DIRECTOR

Dr. Stuart A. MacCorkle (left), head of the University of Texas Institute of Public Affairs, is congratulated by Governor Allan Shivers on his selection as executive director of the Texas Economy Commission. University regents have granted Dr. MacCorkle a leave of absence to direct the commission's research into the Texas state government and present a reform program of efficiency and economy.

## Former Yoe High Student On Blinn College Honor Roll

A former Cameron high school student has made the Blinn College honor roll for the fall Semester, at Brenham. He is Fred T. Johns, son of Mrs. Ida Johns of Cameron.

H. J. Boehm, Registrar of the College says, "Considering the fact that only 52 students out of an enrollment of 601, or 90% of the student body, made the honor roll this is a signal honor for Cameron High School."

Mrs. Walter Senkel has returned home after spending a five weeks visit with her daughter, Mrs. Jack Yewell and family in the Valley. Mrs. Yewell who has been ill is reported getting along nicely. Mrs. Senkel attended the Fruit Fiesta in Mission accompanied by Mr. and Mrs. Ernest Senkel and son, Paul Ray who also enjoyed the Fiesta.

Mr. and Mrs. Charlie Pratt of Milano were guests in the home of Mr. and Mrs. Marvin Pratt Sunday.

## JONES PRAIRIE NEWS

By Mrs. S. S. Hickman

The Sunday School Valentine party scheduled for Saturday evening, February 10 at the Annex was postponed untill Saturday, February 17 at 7:30, so as not to conflict with the mission study course which will be held during the week.

Mr. and Mrs. Hope Jamison and son, Billy Hope of Freeport visited his mother, Mrs. J. A. Jamison over the week end and attended church services here.

Mr. and Mrs. Buster Sweet and son, Billy of San Marcos visited his parents, Mr. and Mrs. W. M. Sweet over the week end. Mr. Sweet is a member of the school faculty and coach of a school near San Marcos.

Mr. and Mrs. C. W. Tanner of Port Arthur were week end guests of Mr. and Mrs. Carlton Crook and attended Sunday morning church services here. Other visitors for the services were

Mr. and Mrs. Wayland Atkinson of Port Arthur, who were spending the week with his mother, Mrs. W. A. Atkinson.

H. M. Yager, son of Mr. and Mrs. E. B. Yager registered at SWTC San Marcos for the spring semester as a junior, having completed the Freshman and Sophomore work at John Tarlton College in Stephenville.

Dr. W. J. Fontaine was a Cameron business visitor Saturday.

Mrs. R. L. Clapp and daughter, La Rue of Sulphur Springs visited her mother, I. R. Glenn here recently. Mrs. Clapp's other daughter Marjorie, senior student at the University of Texas joined her mother for the week.

Mr. and Mrs. E. B. Yagr were in Houston Sunday where they visited their son, and family, Mr. and Mrs. Thomas Yager. They returned Monday.

Miss Barbara Ray, daughter of Rev. and Mrs. Stanely is spending the week with her grandparents, Mr. and Mrs. Ernest Wilson of Longview.

Mr. and Mrs. Baily Jones and son, Jamie were Sunday diner guests of Mr. and Mrs. J. D. Martin.

Mrs. Jack Pond honored her husband on his birthday Saturday, February 3. Several couples were invited and the evening was spent in playing 42. Mrs. Pond served a refreshment course of chicken salad sandwiches, cake, ice cream, coffee and Coca Cola.

Mrs. J.A. Jamison is visiting Mr. and Mrs. Elbert Martin and Mrs. Dessie Pachal of Houston. Friends will regret to know Mrs. Martin slipped on the icy pavement during the previous cold spell and sustained a broken arm.

Will Vaughn and Charles Sanders were in Marlin the past Friday.

Stanley Pratt and Henry Lee Burnett were in Cameron on business, Monday.

George McDonald, Miss Goldie McDonald, Miss Bessie James, Mr. and Mrs. L. S. Ragsdale, Mr. and Mrs. W. C. Hagerty, Mr. and Mrs. Leon Side and daughters Sherrie and Deborah and Mrs. Robert Murphey all of Houston attended the Peed-Mortimer wedding at the First Baptist Church in Cameron Sunday.

John Hirston of Marlow was in Cameron Friday of this week.

## UN Tanks Advance Along Battle Front

TOKYO, Wednesday, Feb. 7.—Two Allied tank-infantry raider columns, making gains up to four miles Tuesday, rammed into the main Chinese line near Seoul and stirred up a pitched battle with Red tanks and fresh troops.

Some U. N. forces were reported only three air miles south of ruined Seoul. Allied artillery, warplanes and warships offshore poured a withering stream of fire all day into the battle area, where Chinese troops were swarming.

About 50 miles east of Seoul, South Korean infantry drove to within 25 air miles of the 38th parallel. They were forced to fight desperately to hold a mountain ridge in this deepest penetration of Red territory since the limited offensive began two weeks ago.

The Republican troops were battling 1,500 Reds in the mountains of Central Korea. The South Koreans had driven six air miles north of Hoengsong under cover of U. S. artillery and fifth Air Forces fighter-bombers.

The heaviest action Tuesday, however, was on the western front near Anyang, eight and one half miles south of Seoul.

The Communists sent at least three Russian-made tanks trudging out into the battleground for the first time in the current Allied drive.

It was the second straight day that the raiders had been shooting up Communist rear areas in daring behind-the-lines attacks.

One Red tank and self-propelled antitank guns fired on an armored tank force that pushed about five miles northwest of Anyang.

The other task force pressing north-east of Anyang gained two miles before retiring to defensive positions. This column fought the entire day in retaking ground it had given up voluntarily Monday. Communists had infiltrated the area Monday night.

Aerial observers spotted Communist trucks crossing the Han River, which flows just south of Seoul.

The enemy convoys were moving

## The Cameron Herald

February 8, 1951

both east and west of Seoul to supply the battered western garrisons. The trucks and fresh troops crossed the river with the aid of wooden planks placed in the ice.

Ollie Skala, student at Durham's Business College at Austin has completed the Executive Secretarial course. She enrolled in the class June 1950 and received her diploma January 25, 1951. Miss Skala is a graduate of the 1949 class at Cameron Yoe High School, and is the daughter of Mr. and Mrs. Louis Skala of Clarkson.

Friends of C. F. Spiller regret to learn he is ill at his home this week and wish him a speedy recovery.

## Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape—imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way

Joseph N. Damillot, 3414 E. 5th Street, Dayton, Ohio, used to be, but since he has been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Damillot found that taking HADACOL helped his system overcome a deficiency of

Vitamins B, B, Niacin and Iron. Here is Mr. Damillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at nights. I could not keep food on my stomach, but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at nights. Thanks to HADACOL. I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know because I have suffered for quite some time."

Hudson Receives A.S.I.E. MERIT AWARD! More Proof...

# Hudson's the buy

**FOR THE LONG TOMORROW**

THE RUGGED DURABILITY built into every "step-down" designed Hudson has again been officially recognized by the American Society of Industrial Engineers!

Among all motor cars in all price classes, Hudson alone has been chosen to receive the coveted Merit Award, the A.S.I.E.'s highest honor. Yes, from the drawing board to the final product, Hudson is cited for "leadership in research, engineering, design, and manufacture"!

This means that in a Hudson for '51 you reap the rewards of highest quality—in rugged, high-compression engines... in the ultra-rigid Monobilt body-and-frame... in beautiful styling that will set the pace for years to come. For Hudson is a car designed and built to stay young—in looks, and in action—the most durable car your money can buy!

We can give you a copy of the Official A.S.I.E. Report. Drop in—see why Hudson is your best buy—when your eyes are on the long tomorrow!

## Poage Reports Better Plan On Mexican Labor

Congressman Bob Poage of Waco predicted Monday that American farmers soon will have a much better arrangement for hiring Mexican laborers.

Poage has returned from Mexico City, where he was an observer at conferences to improve the hiring system. He is vice-chairman of the House agricultural committee.

Under the present arrangements, American farmers are required to do their hiring in Mexico, under supervision of Mexican officials. In addition they must put up a bond with the American government as insurance that the Mexicans will be returned across the border after harvests.

Poage said the Mexican government had approved a new system that the United States Congress will be asked to pass.

The new plan would allow American Government officials to screen prospective Mexican workers, then bring them to hiring points on this side of the border. Identity cards would be issued to the Mexicans. Americans could hire them individually and would not be required to be responsible for their return to Mexico.

A tremendous amount of detail will be taken off the shoulders of the American farmer, Poage said.

He will push the legislation in Congress. Pending passage, the Mexican Government has agreed to keep the present arrangement in force until July 1.

Mr. and Mrs. R. C. Hudson of Chicago will be here Wednesday for an extended visit with their parents Mr. and Mrs. John T. Hause.

## Taylor Construction Company Appointed Quonset Dealer

Appointment of the W. J. Fullerton Construction Company of Taylor, as an authorized dealer for the famous line of Quonset buildings in Taylor and vicinity, with an office in Taylor, was announced today.

The announcement was made by John F. McComb, President of the McRan Company, Houston Texas, distributors of the economical all steel arch-shaped structures for farms, industrial and commercial use. "The appointment of W. J. Fullerton Construction Company is being made to add sales and erection service facilities to meet an increasing demand for Quonsets throughout Taylor and vicinity. To take care of this demand and supporting the organization of W. J. Fullerton Construction Company will be adequate stocks from which prompt delivery can be made, an engineering staff and fabricating facilities to make Quonsets buildings are manufacturer ever extent may be desired," Mr. McComb said.

Quonsets buildings are manufactured by the Great Lakes Steel Corporation, Stran-Steel Division, Detroit, Michigan and their amazing versatility was first shown in World War II. After V-J Day their fast erection

and economy of materials helped speed the quick return to peace time prosperity. Today, all steel Quonsets offer the ideal solution to the fast growing need of farmers, ranchers and industry for quick, economical construction.

According to the manufacturer, Quonsets are described as an achievement in design and production that for the first time enables a building buyer to obtain a quality, fire-safe structure at the cost of ordinary type construction. Streamlined design featuring high tensile alloy steel applied to the framework of Quonsets provide savings by minimizing material, parts and labor required without sacrifice in size, strength or durability.

The N-A-X high tensile alloy steel used for principle support members of Quonsets give an additional advantage to the building owner. This benefit is a marked resistance to corrosion as compared with carbon steel ordinarily used for framing manufactured metal buildings.

In all Quonsets the steel members have the patented Stran-Steel nailing groove. Nails driven in this groove materials. In addition to being a big tighter than that of ordinary building are deformed and clinched many times time-saver in erecting the building, this feature enables any handy man to apply common interior lining materials to the steel framework as sim-

ply as to wood. On the farms and ranches, the buildings are used for feed and implement storage, hay barns, dairy barns, grain storage, stock sheds, poultry houses and utility buildings of all kinds. Industry and commerce use these for manufacturing plants, stores, offices, warehouses, garages, welding, paint, and machine shops, and many other uses too numerous to mention.

The basic sizes of the Quonset building range from the Quonset 20, 20 feet wide, length variable, in 12 to 20 foot sections, through the Quonset 24, 32 and 40 to the Quonset Multiple with variable widths in sections of 20 feet, 6 inches and variable lengths in sections of 20 feet.

Mrs. Addie Mae Coruthers has completed a pleasant visit with Mrs. Cora Blakey and Miss Leona Blakey and returned to her home in Muleshoe.

Mrs. Alma Houston and sons visited in Temple over the week end. They visited in Maysfield Sunday.

## The "New Taste" in beer! PALE DRY IS THE REASON WHY!

A little over a year ago we deliberately changed our formula for making GRAND PRIZE beer and began brewing a new and different product—different from any beer

sold in Texas—a pale dry beer! The response was immediate. Pale Dry GRAND PRIZE became the most-talked-about beer in Texas as folks everywhere began to enjoy it.

**What does "Pale Dry" mean?**

Pale Dry is the name for a new and specific kind of beer—pale gold in color, and sharply dry in flavor, as opposed to old-style, sweeter, darker beers heavy with malt and fattening solids.

**How is it brewed?**

The GRAND PRIZE master brewer uses only the very best hops, the finest malt, top-grade Texas rice, the purest strains of yeast culture and pure deep-rock artesian water in brewing GRAND PRIZE. It takes such quality ingredients to produce a truly pale dry beer. Every barrel of Pale Dry GRAND PRIZE is given abundant time to age.

**We believe...**

that if you once try Pale Dry GRAND PRIZE you will join the ranks of the hundreds of thousands of Texans who prefer it to any other beer!

**GRAND PRIZE Pale Dry BEER**

Tune in The Texas Roundup every Friday, 7-8 p.m., over these stations: KPRC, WFAA-820, WOAI, KRIS, KRGV.

## Allies Rush More Troops To Front

TOKYO, Feb. 5 (Monday)— Communist troops tried to seize the offensive along the 45-mile front in Western Korea Monday and jammed an estimated 15,000 men across the main route to the former South Korean capital of Seoul.

Allied reinforcements were rushed to the Seoul and Inchon areas.

Allied officials said the Communists no longer were merely trying to repel United Nations thrusts, but were trying to go on the offensive at least in a limited way and were "striking back with fury all along the Western Korean front."

Coincident with the Communist counterattacks, American troops captured a hill overlooking the Knonchon valley approaches to the Han River, ten miles below Seoul. The high ground was taken after other American and Turkish troops hurled back three powerful Communist counterattacks.

American infantrymen, supported by Puerto Ricans, captured Hill 226 without opposition two hours after a drive was launched Monday morning. Capture of the strategic hill came on the twelfth day of the Eighth Army's drive toward Seoul.

The hill is the last mass of high ground between the U. N. Forces and the Han approaches to the main Suwon-Seoul highway.

Allied artillery lit up the bitterly cold, pitch-black night, pouring hundreds of rounds of high explosive and searing white phosphorous shells into the attacking Reds south of Seoul.

As the Communist attack subsided at dawn, Allied warplanes roared out through hazy clouds over the battle lines and blasted the Red troops in the holes from which they had stalled the U. N. drive about nine miles south of the former South Korean capital. The Communists lost an estimated 12,000 casualties in halting the drive.

## More Than 50 Lines And Cities Affected

Hope for a break in the crippling nationwide rail tieup focused Sunday on critical bargaining in the nation's capital, John R. Hays, local postmaster said early Monday morning that the strike and affected the mail situation in Cameron to a great extent and that an embargo had been placed on a large number of items with only essential mails going through.

The six-day "sick-call" of switchmen has hit more than 50 railroads serving at least 100 major cities. It has put more than 160,000 industrial workers on the idle list.

Freight traffic was slowed to a mere trickle and many roads curtailed passenger traffic. Most mail was embargoed.

Pleas by union leaders for a back-to-work movement of the 12,000 striking switchmen produced few results.

At least two cities, Minneapolis and St. Paul, Minn., reported that back-to-work movements which started on two roads Saturday fizzled after the shift.

At New York, the Brotherhood of Railroad Trainmen charged that a Pennsylvania trainmaster refused to let some trainmen return to work Saturday night without "return to duty" certificates from the road's medical examiner. A rail spokesman denied this and said "we are not preventing anyone from returning to work."

## David Green Trains At Great Lakes, Ill.

David H. Green, seaman recruit, USN, son of Mr. and Mrs. Otto Green of Route 1, Burlington, is undergoing recruit training at the world's largest Naval Training Center, Great Lakes, Illinois.

Recruit training is the sharp break between civilian and Naval life in which the new Navy men learn the fundamental principles of the Naval service.

In the course of his training the recruit is taught seamanship, Navy customs, terms, basic ordnance, gunnery, signaling and navigation.

Upon completion of his training the recruit is assigned either to units of the Fleet or to a service school for specialized training.

## Boy Scouts Mark 41st Anniversary

Official poster marking the 41st birthday.

President Truman will greet 12 outstanding Boy Scouts in the White House on Feb. 6 opening the 41st anniversary of the Boy Scouts of America. Boy Scout Week will be observed Feb. 6 to 12 in every part of the nation by more than 2,750,000 boys and adult leaders. "Strengthen Liberty" is the birthday theme.

At "birthday parties" during Boy Scout Week throughout the nation each member will repledge himself to the Scout Oath or Promise. In each community representatives of the churches, schools, government and business will observe the anniversary with their Scouts. At Unit "open house" parties, parents, relatives and members of the chartering institutions will hear a review of the year's program features, service projects and membership gains.

During Boy Scout Week members of the organization will develop window displays and demonstrations on civil defense and conservation. Each member will inspect his home to make certain no hazards exist. Surprise mobilizations will test Scout efficiency should emergencies arise.

Since 1910 more than 17,500,000 boys and men have been identified with the Boy Scouts of America.

## Knights of Columbus Sponsors Services At Local Church Sunday

A day of Recollection was sponsored by the Knights of Columbus, Cameron Council No. 2338, on Sunday January 28.

The devotions and conference being held in St. Monica's church. The day began at 10 A. M. with Mass and was followed by a conference.

The afternoon devotion and conferences began at 1 P. M. and were closed at 4 P. M. with Benediction. Father Michael Scanlon, S. S. C., a Columbian Father, was in charge of the conferences and devotions.

There was an attendance of 102 men which included members of the local council of the Knights of Columbus, and members from the parishes of Cyclone, Cameron, Burlington & Marak.

## Cigarette, Liquor And Wine Revenue Increase

Austin, Jan. 31 — State revenue from cigarette, liquor and wine stamps continue on the upgrade in January. They netted \$4,351,677, a jump of \$1,435, 338 from a year ago.

The total also surpassed the previous month's receipts by \$579,726. Cigarette stamps yielded \$2,923,137; liquor \$1,375,142; and wine \$53,374.

## Gas Pressure Low Saturday Morning

A major gas main broke north of Temple early Saturday morning according to Richard Bush, manager at the Lone Star Gas Company.

A warning was broadcast over the radio in the early morning news casts warning people in Bell and surrounding counties that would be affected

by the break, to use as little gas as possible.

Business houses in Cameron were asked to cut off the gas until repairs could be made. Gas pressure in the residential areas was also low and citizens here were cooperating with the appeal made by the Gas Company.

It was reported that repairs would be accomplished within a short time and it was hoped that a normal pressure would soon be in order.

## The Cameron Herald

February 8, 1951

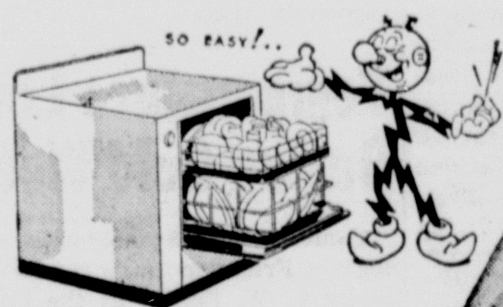

R. W. Krause of Houston was a Sunday dinner guest in the home of Mr. and Mrs. Joe Bartek.

Miss Bonnie Pratt of Marlow was a visitor in the city Friday.

Mrs. Oro Arnold and girls of Fort Hood visited Mrs. Minnie McFarland over the week end.

"I'll meet you in ten minutes ...  
... all I have to do is put  
the dinner dishes in the  
**Electric Dishwasher!**"

*Spoken like a true Texas modern!*  
She's the busy young housewife who gets things done quickly, easily at the flick of a switch! No slave to her kitchen, she's a believer in miracles ... daily electric miracles ... and knows that families of modest means can well afford them. She may live next door. She may be you. Certainly, she *should* be you.

Like her, you can enjoy more leisure ... take a permanent vacation from dishwashing drudgery with a new electric dishwasher!

Washing dishes the electric way is a small matter of stacking them (as many as 60 at a time) safely into the dishwasher and turning a switch.

In short order, your dishes are automatically, hygienically double-washed, double-rinsed and electrically dried. No more greasy, unsanitary dishcloths. No more unsightly dishpan hands.

What could be more wonderful! Drop by your nearest electrical appliance dealer soon and see the new electric dishwashers on display.

## WANTED

I want to rent an unfurnished house. Permanent resident. Raleigh Lamb at Cameron Herald.

## D. G. Humble Speaks To Lions Tuesday On Citizenship

D. G. Humble, local lawyer and member of the Lions Club, gave an unusual talk on citizenship at the Lions Luncheon Tuesday.

Mr. Humble brought out his talk the duties of a citizen and stressed to the members of the club their responsibilities as citizens in their community. He pointed out how easy it was to neglect duties and discussed the importance of each citizen to share in and take part in the civic affairs of their communities and only through the channels of cooperation of citizenship sharing the responsibilities can progress in a community be had.

After the discussion a quiz-test, prepared by the American Citizenship Committee of the State Bar of Texas, was held by Mr. Humble and through this test the members were shown the advantages of being a good citizen and what is required of them.

Herbert Nance was program chairman and introduced Mr. Humble.

Raymond Barkmeyer of Burlington transacted business in Cameron Monday.

## Home Demonstration News By Mrs. Alford

Milam County 4-H Council met in the Home Demonstration Agent's office Saturday, January 3, at 10 A. M. for a meeting. Mrs. Floyd Swanzy and Florence Swanzy, Burlington 4-H club Mrs. Carl Linke, Jacqueline Linke, Jane Ann Gilchrist, Thorndale 4-H Club were present. The weather was still a bit ugly for others to get here.

The group planned a county-wide 4-H budget for the 1951 year. It was decided that each 4-H club would raise \$5.00 each to go into the County 4-H Treasury to be used in sending two 4-H girls and an adult leader to the state 4-H Round-up in June and to send 4-H girls and a leader to the District 4-H Encampment at Buchanan Dam in June.

The girls were urged to take messages back to their respective clubs on keeping records of their 4-H work and to get their sewing projects in order to be ready for the Dress Revue in April.

Bethlehem, Duncan, and Conoley Home Demonstration Clubs met with the Home Agent this week for demonstrations on planning the bedroom and dressing center of the home.

The Agents met with the Sharp 4-H Clubs Wednesday morning. The Home Agent worked with the girls on pattern selection and fitting.

Last week we had plenty of time to get out the seed catalog and plan the family garden. Did you get your plans made to include plenty of fresh green and yellow vegetables? Better check the garden list carefully. Plan to have vegetables to can, freeze or preserve in some way for year-round use. When the rains come we can start gardening then.

## Temperature Low During Cold Week

Cameron had a temperature of 5 degrees Friday morning it was reported by L. W. Smith, at the Cameron Water Works.

This is the coldest temperature recorded since January 31, 1949 when the temperature dipped to 3 below zero in what was one of the most destructive cold waves the county had suffered in a long time. The city at that time was paralyzed and normal operations were taboo as 7 inches of snow covered the ground from the storm which swept over Texas and spread to the Gulf regions. At that time it was colder in Cameron than in Dallas, while Lubbock in the south plains had a temperature of 10 de-

grees above zero.

According to Mr. Smith back in 1930 on January 17 the temperature was 7 below zero and during the day the high was 32 degrees. These records were compiled by the late R. A. Tag, who was Manager of the Community Public Service at that time.

The Texas Panhandle had 15 degrees below zero, warming to freezing or slightly above in the afternoon. Eight below in the South Plains and Big Bend area, and zero in the Fort Worth area.

While the northern half of the state could claim the coldest weather icebound South Texas was hardest hit. The Lower Rio Grande Valley gave up its citrus and vegetable crops as completely lost and wondered if it could save the fruit trees. A vast area south of Houston and San Antonio was still locked in ice which knocked out telephone and Western Union communications.

## Clear And Colder Friday Morning

(From the Daily)

A predicted near-zero temperature will hit here early Friday morning. The biting 5-day cold wave is expected to reach its peak here Friday.

A low of 11 degrees was reported Thursday morning by L. W. Smith, local weather observer. This is the lowest at any time during the current cold spell. Readings for the week have been: Monday 20½ degrees, Tuesday 16 and Wednesday a low of 18 was recorded. Mr. Smith said that actual precipitation, or measure of snow was around .08 inches.

No more snow and sleet was predicted for this area. Skies which cleared Wednesday night would probably remain clear and would likely send the thermometers plunging Thursday night.

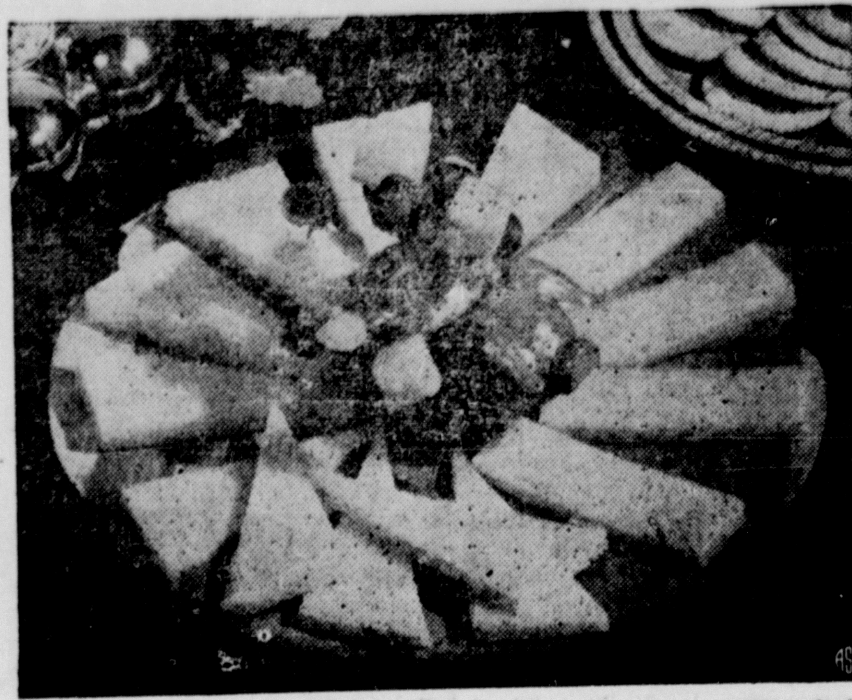

Highways in all directions from Cameron were passable but were dangerous. It was requested that people stay off roads except in emergencies.

Greyhound and Arrow coach lines were slowed down and in some cases stopped. Santa Fe trains were three to five hours late from both the north and south.

## Contributions Coming For Polio Drive Here

Last week a list of contributors appeared in the columns of this newspaper. Since that time a number of others have made donations and are as follows: History Club, "42" Leisure Club, Milam County Nurse's Association, Hefley-Stedman Motor Company, H. E. Haraway, Atkinson-Stallworth,

## Cheese Tray Always Tempting

While cheese tray service is popular snack fare at any time, it is particularly appropriate during this season of the year. So many popular cheese varieties are available, all pre-cut and pre-packaged, that an attractive tray can be prepared in jig time. Holiday entertainment will be so easy you'll want all your friends to visit you.

This tray features natural cheddar cheese, one of the most popular of all cheese varieties, cut in interesting cubes, slices and wedges, and attractively arranged around a centerpiece of hors d'oeuvres. Some guests like their cheddar mild, others sharp. To satisfy all your guests include some mild, some sharp.

If you don't already have one, attractive trays in inexpensive wood and china are available in the gift and houseware sections of the stores.

## Second Intramural Boxing Tournament To Be Held Here

A second intramural boxing tournament will be held at the Yoe High Gymnasium Thursday, February 8, Coach Paul Smith said.

The District Tournament had been scheduled for this date but due to a number of circumstances might not be held.

Approximately fifteen bouts have been planned and action will get underway at 7:30 P. M. and will last for two hours Coach Smith said. Don Ross will be referee with Dick Young announcer and local businessmen will be the judges.

This is the second intramural tournament at the school this season and many boxing fans attended the first tournament.

## SOCIETY IN THE NEWS

### Lora Anna Peed And Cpl. Mortimer Exchange Wedding Vows Sunday

Miss Lora Anna Peed, daughter of Mr. and Mrs. E. L. Peed of Hoyte became the bride of Corporal James Albert Mortimer, son of Mrs. Helen C. Mortimer of Milano, Sunday, January 28, 1951 at 4 p. m. at the First Baptist Church in Cameron. Rev. Garland Bullock of Baylor University at Waco read the double ring ceremony.

Mrs. Bettye Bullock, Organist, played, "Old Love Song," "Drink To Me Only With Thine Eyes," "In The Glooming" and accompanied Miss Shirley Horstmann who sang "I Love You Truly." Mrs. Bullock was dressed in a grey wool suit with pink hat and pink carnation corsage. Miss Horstmann wore a grey suit with a yellow carnation corsage.

Floor baskets filled with pink Gladiola decorated the church and a bowl of pink Gladiolas was placed on the Piano. The family pews were marked with pink satin bows.

Miss Edna Peed, sister of the Bride, was Maid of Honor. She chose a toast colored gabardine suit, winter white blouse and black accessories with white gloves. Her corsage was of white carnations.

The bride given in marriage by her father wore a navy gabardine suit with winter white silk blouse and navy shoes. She wore a small navy and pink hat with black off the face veil, and white gloves. She carried a shower bouquet of pink carnations with net and ribbon streamers atop a white Bible. She carried out the traditional something old, new, borrowed, blue and a penny for luck.

Mrs. Peed, mother of the bride chose a black and green crepe frock with black accessories. Mrs. Mortimer, mother of the groom wore black crepe frock with black accessories. Both wore white carnation corsages.

Cpl. Eddie A. Huntsman, Veteran of World War II, brother-in-law of the groom was best man.

The bride was reared in the Hoyte Community and is a graduate of Yoe High School and attended Austin Col-

lege. During World War II she received training as a Nurse Cadet at Wilson N. Jones Hospital at Sherman. Leaving the NC Corps she began work as office nurse and secretary to Doctor David Shapiro, at Newton Clinic where she has been employed the past five years.

The groom attended school at Milano. He was Buglar 1-C in the Navy During World War II, having entered in 1942. He received training at San Diego, California and served in the South Pacific. He was awarded the American Theater Ribbon, Asiatic-Pacific ribbon, Victory ribbon and G. C. Medal. He received his discharge in 1945 and re-enlisted in the Army and was stationed at Tokyo, Japan. He served in the Honor Guards to Gen. MacArthur in Japan. At present he is stationed at Fort Lawton, Seattle Washington where he is with the Military Police.

Following the ceremony a reception was held at the home of the brides parents at Hoyte. In the dining room a large table was covered with a heirloom lace cloth and centered with the brides bouquet. The three tiered wedding cake topped with a miniature bride and groom and wedding bell was placed on a reflector. Cake, punch and coffee was served.

Out of town guests for the wedding and reception were Mrs. George McDonald, Miss Goldie McDonald, Miss Bessie James, Mr. and Mrs. L. S. Ragsdale, Mr. and Mrs. W. C. Hagerty, Mr. and Mrs. Leon Seidl and daughters, Sherrie and Deborah and Mrs. Robert Murphy all of Houston, Vance McDonald of Bay City, Mr. and Mrs. Edgar Russell and children Sherrie and Johnnie, Calvin Kuhn of Austin, Rev. and Mrs. Garland Bullock of Waco, Mr. and Mrs. D. G. Odom and Sharon of Devine, Mr. and Mrs. Ivan Gant of Hearne.

Following a short wedding trip to Carlsbad, New Mexico the bride will continue her duties at Newton Clinic and the groom will return February 7 to Fort Lawton, Seattle Washington.

### Mrs. Gene Blake Is Hostess To The Three Arts Club Thursday

Mrs. Gene Blake was hostess to the Three Arts Club at her home Thursday afternoon, January 25.

Lovely Azalia pots were placed at vantage points about the party rooms.

W. T. Hanes, Superintendent of Yoe High School had charge of the program and his subject was, "Do You Want To Cheat a Child." The speaker was introduced by Mrs. Dwight Moody.

Mrs. Herbert Colburn presided in the absence of the president.

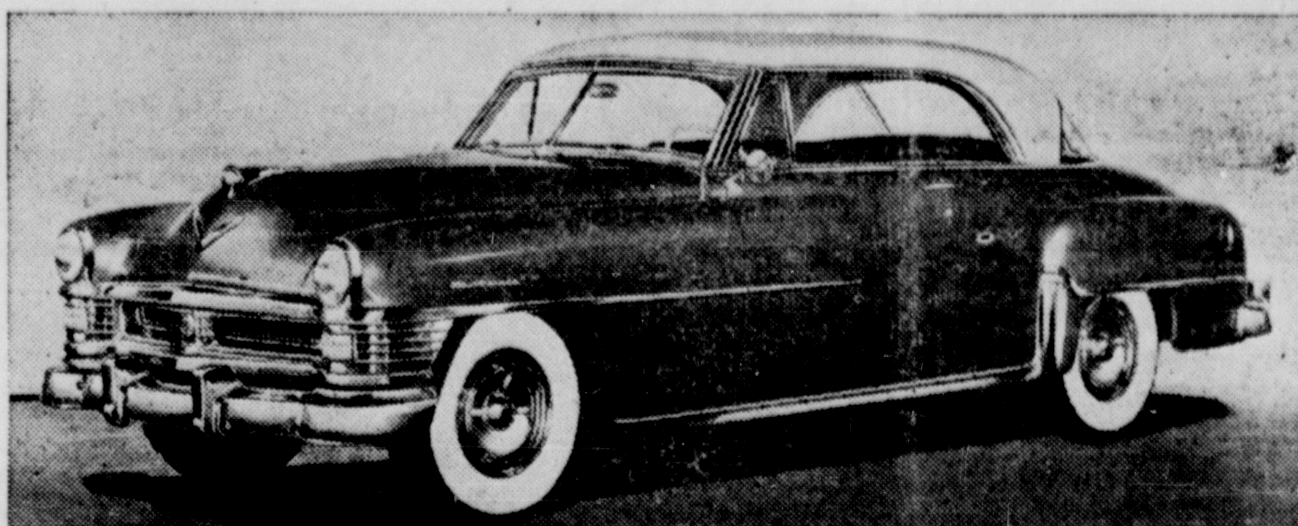

A brief discussion on the March of Dimes fund was discussed.

The hostess was assisted by Mrs. Colburn in serving a salad plate with coffee.

Thomas Leonard, son of Mr. and Mrs. Horace Leonard is confined to his home this week with measles.

### Ann Elliott Given Birthday Party

Ann Elliott, daughter of Mr. and Mrs. Kenneth Elliott of Cameron celebrated her seventh birthday with a party at her home Friday afternoon, January 19.

Guests for the occasion were Mitzie Jones, Patty Kay Hightower, Sandra Baskin, Charles Staley, Karen Adams, David Elliott, Henry Paul Michalka, Margaret Nance, Beverly Ann King, Carol Ann Vaughn, Rebecca Harding, Frances Jackson, Josey Jackson, Jimmie Woodum, Danna Kay Reid, Barbara Woodum, Mary Jo Bachus and Mrs. Earl Bachus of Temple and Mrs. John Lewis.

In the dining room of the home a lovely white three tiered birthday cake decorated with tiny pink birds and rosebuds, on a reflector was the centerpiece for the table. An ecru cut-work table cloth covered the table.

In the living room an arrangement of pink carnations on a coffee table were used as decorations for that room.

A series of indoor and outdoor games were played and after the honoree had opened her gifts the hostess served ice cream, hot chocolate and birthday cake.

Fli-back ball sets and party hats were given each child.

### W. A. BANDY—

(Continued From Page One)

before coming to Cameron.

Alvin Hefft, service man, has worked with several water companies in Texas, is one of the valued employees of the Company. He has been with the local plant for almost six years.

Mr. Smith and Mr. Hefft and other employees of the water department are looking forward with great interest in having the school in Cameron as information, instruction, and discussions of various kinds during the course will be beneficial to the department here

### Entries Place In Eight Divisions

A number of entries in the Houston Fat Stock Show from Milam County placed in their respective divisions according to J. D. Moore, county agent.

Gene and Ferol Angell, sons of Mr. and Mrs. C. O. Angell of the Sharp Community, entered calves in the Houston Show and placed 5th and 16th in the heavy class. They sold three calves for 53c, 51c and 50c per pound.

David Eubanks, son of Mr. and Mrs. W. H. Eubanks of the Gay Hill Community, entered his scramble calf in the show and the calf failed to place.

Charles Moraw, son of Mr. and Mrs. Leo Moraw of the Vogelsang Community, placed his three Duroc Barrows 5th, in the pen of three classes and sold them for 22½c per pound.

Billy Rae Reddehase, son of Mr. and Mrs. Henry Reddehase of Ben Arnold and Ferol Angell, entered the Dairy Scramble at the Houston Rodeo, Wednesday night February 7.

Gene Angell entered the Beef Scramble Thursday night at the Houston Fat Stock Show. These boys were

accompanied by Mr. Angell, Mr. Reddehase and County Agent Moore to the show.

Other winners included Billy Clark of Thorndale, Dwight Chandler of Route 4 Cameron and Jimmy Smith of Rockdale. Raymond Chudey of Buckholts will receive a \$125.00 certificate with which to buy a beef animal of his choice. The animal will be exhibited at the 1952 Exposition with a chance to win several thousand dollars in prizes.

### Motorists Are Urged To Get Car Tags Early

If you are the owner of a motor vehicle in Milam County, you can obtain 1951 license plates, beginning Friday morning, February 9, at the office of Valter White, Tax Assessor and Collector.

The Highway Department has advised car owners to buy licenses early and avoid the last minute rush.

The Cameron Herald  
February 8, 1951

### Farm Losses Due To Ice Uncertain

The full impact of freeze damage on Texas citrus, livestock and wheat can not yet be measured, the U. S. Department of Agriculture said.

Cattle, sheep and goats appear to have survived the severe cold of last week "remarkably well." Losses from the freezing rain were lower than had been expected; death came mostly to newborn calves and lambs. Livestock shrinkage was apparent, but cattle were in fair condition from the supplemental rations they have been getting.

It was still too early to determine the wheat damage, the USDA review of crop conditions through Tuesday said. Early reports from the High Plains indicated that most dormant wheat would survive and that the freeze would help by killing insects.

The USDA said damage was "severe" to citrus, but that appraisal of total loss of fruit and damage to trees could not yet be made. Commercial vegetables were severely hurt by the long continued cold.

## 28 Men To Take Physicals In March

A call for twenty-eight men from Milam County to report for pre-induction physical examinations on March 22, has been issued, according to August G. Kunz, chairman of the Milam County Draft board.

This is the eighth call for men to report for physicals from this county and will make a total of 208 from Milam County to be called up for physicals since hostilities began in Korea last summer.

Fifteen men will leave for induction into the armed service from this county on February 12. The Department of Defense has recently called on Selective Service to supply 80,000 men for the army in April. Identical calls for 80,000 men were issued previously for January, February and March.

Altogether, the draft has requested a total of 530,000 men since inductions were resumed last fall. All of these inductions have been for the Army.

Defense Headquarters have said the Navy, Marine Corps and the Air Force do not plan to draft any men in April. Work on the proposed legislation to lower the draft age to 18 and to extend the period of service from 21 to 27 months is still pending in Congress. The chief reason of the lagging of this issue might be attributed to the fact that Congress is now listening to the report of General Eisenhower's tour of Western Europe.

There was a discussion on the possibility of creating an American Foreign Legion to strengthen the Western Allies against Soviet aggression. 44 Men will leave Cameron for the Recruiting Station at Love Field in Dallas, February 15.

## VA Will Distribute Insurance Dividend

WASHINGTON, Feb. 1.—The Veterans Administration said Thursday it will distribute a \$685,000,000 life insurance dividend this year, starting in April.

The announcement of the dividend's size has long been awaited by World War II veterans, holders of the 8,000,000 National Service policies who are eligible for checks.

VA said the payments will occur throughout the year on the policy anniversary dates.

The formula for paying the dividend has not yet been completed. The amount of each dividend will vary according to the number of months the policy was in force the plan of insurance, the face value of the policy and the age of the holder at the time it became effective.

However, the average payment figures out to about \$85, compared with an average of \$175 for the first special dividend on which VA started payments in January 1950.

The new dividend applies to policies held in force for at least three months during the period from 1948 to 1951. It applies to so-called term policies and to those which have lapsed or were terminated by the death of the policy-holder.

Mrs. R. S. Wiley and Mrs. B. Slocomb have returned from a pleasant visit in the valley. Mrs. Wiley and Mrs. Slocomb attended a fruit fiesta at Mission and also visited Mrs. Wiley's daughter, Mrs. Flynt Sorrell while there.

Mrs. Wendell Carr of Cameron is a surgery patient in St. Edward Hospital.

## Farmers Aware Of Conservation Needs

Milam County PMA Committeemen working under the Farmers Conservation Program are reporting that farmers are expressing more interest in conservation and are concerned about their conservation needs on their farm.

Ted Ford, Committeeman at Baileyville brought in requests for nearly 1000 tons of Limestone to be delivered to farmers in that area soon. He also had many requests for farm Ponds and Terraces that were needed immediately. A contractor will soon start working in that area.

Herbert Menn, committeeman from Rockdale reports many are going to participate in the agricultural conservation program that never participated before.

Emory Doss, Committeeman from Gay Hill brought in requests for Limestone, Phosphate, underbrush eradication, from farmers who have not been participating in the conservation program.

The objective in the Farmers Conservation Program is to get a better balanced farm program and to give farmers more information about our 1951 agricultural program.

## Gen. Eisenhower Urges Speed-Up

WASHINGTON, FEB. 2 — Gen. Dwight D. Eisenhower said Friday the United States must reinforce Western Europe with more ground troops soon and rejected at "utterly hopeless" the idea that overwhelming air and sea power alone could defeat Communist aggression.

He made the statement in a radio-television report to the nation after telling Congress he wants six American divisions—90,000 to 100,000 men in Europe by the end of this year. He also endorsed the 18-year-old draft and universal military training and strongly urged extending the draft term from 21 to 27 months.

While stressing that more U. S. ground troops must be sent to Europe, he said the Continent's "most immediate need" is for munitions and equipment. All the nations, he said, can "rapidly and markedly" increase their "resistant power" if they get such supplies.

The United States now has two divisions in Europe and present Administration plans call for this force to be increased to eight to 10 divisions for Eisenhower's new Western defense army. This country also will contribute most of the strategic bombers and a big share of the warships to the defensive alliance.

The general said the two overwhelming reasons for United States participation in European defense are these:

1. The "utter hopelessness" of the alternative—a world under the dictatorship of totalitarian powers "whose avowed purpose is the destruction of freedom."
2. The fact that the North Atlantic Treaty "has brought new fuel to the flames of hope in Europe."

Mr. and Mrs. Edgar Russell and Children, Sherrie and Johnnie attended the wedding of Lora Ann Peed and Corporal James Mortimer at the First Baptist Church in Cameron Sunday.

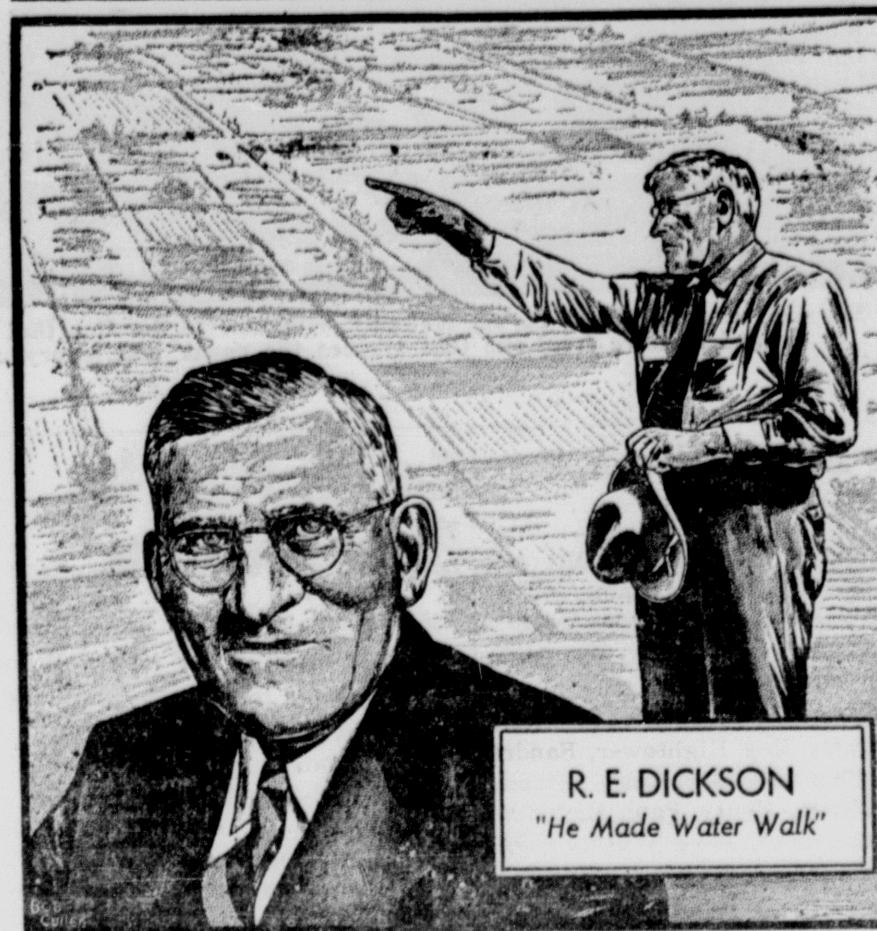

Rev. and Mrs. Garland Bullock of Waco attended the wedding of Lora Anna Peed to Corporal Jim Mortimer Sunday at the First Baptist Church in Cameron.

Mrs. Alfred Simecek of Cameron is a medical patient at St. Edward Hospital.

### Texas Venture

In Education • 1876-1951  
Our first state college—Texas A. and M. is now in its seventy-fifth year

On the rolling plains of West Texas, where an annual average rainfall of 20 inches creates the most serious problem for agriculture, Ray E. Dickson will be long remembered as "the man who made water walk." In his 36 years as superintendent of the Texas Experiment Substation at Spur, this Texas A. and M. researcher led the way to full use of the country's precious rainfall through development of syrup-pan terraces. He learned and then preached that the rainfall of the plains country was sufficient, if properly conserved. He proved that water conservation is the quickest way to soil saving. On the basis of his pioneering much of the work of the national Soil Conservation Service was established.

Leo Laake, owner of the Laake Drug Store in Santa Fe town is among the patients ill and in St. Edward Hospital. His many friends wish him a speedy recovery.

Mr. and Mrs. John McLerran, Mazie Malone and Mrs. Raymond Abbott and son of Hearne visited Airman, Olen McLerran at Lackland Air Field in San Antonio over the week end.

## Grand Jury Returns 13 Indictments Here

Thirteen indictments were returned by the Milam County Grand Jury, January term, which recessed Monday. Twelve felony and one as a misdemeanor, transferred to County Court, according to District Judge O. D. Graham, who was recently appointed by Governor Shivers.

E. A. Perrin was appointed foreman of the jury with the following members: Henry Abel, W. H. Camp, Jr., C. V. Vogel, Walter H. Lester, Roy Hensley, W. E. Beckhusen, E. B. Hyer, J. J. Janicek, Thelston Morgan, J. A. Ely Jr., and R. D. Wise.

Indictments have been entered on the docket as follows: John Henry Lewis, attempt to burglarize; Frank Percy Lewis, burglary; Florida Mae Conner, burglary; Florida Mae Conner, robbery; Irinia Salazar, for burglary; Edwin Kennedy Sanders assault to murder; Jack Elliott Knox, forgery and passing forged instrument; Lois Grant Knox, forgery and passing forged instrument; James Carlton Woolverton, D. W. I. second offense; Riley Whittington, burglary; McKinley Harre, burglary; George Andrews, aggravated assault.

Friends of Mrs. Adrian Barber of Route 1, Cameron regret she is ill and in Newton Memorial Hospital for treatment.

Possibilities loomed Thursday that South Texas cattlemen may suffer multi-million dollar losses during the cold wave.

Reports from throughout the southern portion of the state where that freezing rain and sleet may cost a loss of 5 per cent and more if weather conditions come up to the forecast.

Houston cattlemen placed their loss estimate at between 3 and 5 per cent. Cattle are unusually thin because of extreme dry conditions on the coast during recent months. This, too, has made hair of the cattle short.

Cattlemen agreed that cattle are not in condition to withstand a protracted spell of cold and sleet because of unfavorable range conditions during the fall and winter months.

Nancy Dornier, daughter of Mr. and Mrs. Herman Dornier, Jr., who had an appendectomy at Newton Memorial Hospital this week is much improved and will return to her home soon.

Elizabeth Newton, daughter of Dr. and Mrs. W. R. Newton is ill and in Newton Memorial Hospital.

Jesse Hazelwood of Route 2, Cameron was a business visitor in Cameron one day this week.

Go To Church Sunday.

**New in Style—New in Structure—New in Power—New in Thrift—  
Potent in Price Appeal—It's the 1951 BUICK SPECIAL!**

**H**ERE is good news for folks with a shrewd eye for what their dollars will buy.

Here is a tidy traveler that defies the upward trend of costs—proudly wears a 1951 price tag like that which zoomed last year's SPECIAL into popularity so great that it put a crimp in "the low-priced three."

Take our word for it, this is every inch and ounce a Buick—Buick-featured, Buick-designed, Buick-built from the ground up—but literally the newest thing on wheels.

The sturdy and ample body is new. The high-strength frame is new. The power is new to the SPECIAL, which now has the

Standard equipment, accessories and trim illustrated are subject to change without notice.

**When better automobiles are built  
BUICK will build them**

thrifty F-263 engine that first made its name in the SUPER, and here delivers 120 horsepower with standard transmission—128 with Dynaflo Drive.\*

It's a Buick with less weight and more power—and that spells a pair of new thrills for you. There's a performance thrill such as you've never enjoyed in the SPECIAL—plus a handsome gas-saving into the bargain.

We'll make a prediction now as to what title folks will give it, once they get it out on the road.

\*Standard on ROADMASTER, optional at extra cost on other Service.

That title in three words, will be: "Thriftiest Buick Yet!"

Better hurry around to your Buick dealer's and look this marvel over. We'll give you another prediction—which is:

Once this one's discovered, the demand will be terrific.

**No other car

## NEW SPEAKER SWORN IN

Secretary of State John Ben Shepperd is shown administering the oath of office to the new Speaker of the House of Representatives of the 52nd Texas Legislature, Rep. Reuben Senterfitt of San Saba. Shepperd officially opened the House of Representatives Tuesday, January 9, and presided until the unanimous election of the San Saba attorney as Speaker. Representative Senterfitt is beginning his sixth full term in the Texas House. He is the senior member of the law firm of Senterfitt, Crump and Jameson in San Saba. The Secretary of State convenes the initial session of each Legislature according to requirements of the Constitution and Texas law. Both Shepperd and Senterfitt, in opening remarks to the legislative body, termed this Legislature as one of the most important and crucial in the history of the state.

## 1951 Chrysler To Be Shown Saturday

Carroll Green of the Green's Motor Company has announced that the new 1951 Chrysler Car will go on display at his showroom, Saturday, February 10. He extends an invitation to the public to visit the Motor Company and view the major developments shown in the Chrysler line.

Advanced styling inside and out, a new 180-horsepower Fire-Power engine and an improved Chrysler Spitfire engine head the list of 73 major improvements incorporated in the new 1951 Chrysler line.

Major developments in the new line include an Oriflow shock absorber, standard equipment throughout the line Hydraguide hydraulic-mechanical power steering; and a Fluid-Torque Drive torque converter.

The power steering unit and torque converter are standard equipment on the Imperial 8-passenger sedan and limousine, and may be had as optional equipment on all other Imperial and New Yorker models.

The 1951 Chrysler is offered in twenty-one body styles in the Windsor, Windsor Deluxe, New Yorker and Imperial lines.

Styling changes include a new wide sloping hood that helps to increase driver visibility; new front fenders; new curved bumpers and massive

bumper guards; new front and rear ornamentation; new grilles that are distinctive for each model; new front and rear fender moldings; and a belt molding that completely encircles the car.

The new wrap-around "Clearbac" window is now used on all models, increasing rear-window area by 201.7 square inches or 30 per cent as compared with 1950 models not having this feature.

Length of the car is accentuated by the new front fender line, which extends further back in the front door panel. A distinctive turn signal and parking light combination is found on each model, and the span between the headlights has been increased 3.5 inches, better to outline the width of the car.

Interior styling includes improvements in upholstery and trim with an unusually wide choice of materials that are the most luxurious and tasteful that Chrysler has ever offered.

Mr. and Mrs. E. T. King of Texas City recently spent the night in the home of Mr. King's sister, Mr. and Mrs. Herry Dryer. Mr. and Mrs. King were enroute to their home from California where they were recently married.

Kay McDonald, little daughter of Mr. and Mrs. Otis McDonald is confined to her home this week with measles.

## Trick Tests Used To Deceive Women

Reports coming to the National Better Business Bureau indicates that many women are being terribly upset by men selling cooking utensils in house-to-house, who are telling them that aluminum cooking utensils in their homes are bad for their health and should be thrown away.

These salesmen even make misleading boiling test to show an apparently clouded condition of water boiled in aluminum.

The National Better Business Bureau states that these rumors being spread and these tricky tests are entirely false and misleading. Prominent health authorities, such as the American Medical Association, state that there is absolutely no truth whatsoever in them. The Federal Trade Commission has branded such statements as false and its findings have been sustained by the courts. So, ladies, be warned. Don't throw away your aluminum cooking utensils on the advice of some salesman who tries to interest you in some competitive cooking utensils. Aluminum cooking utensils are entirely safe and if you have the slightest doubt—ask your family physician or your local health department.

# ANNOUNCING...THE LOVELIEST AND FINEST NEW CHRYSLERS EVER BUILT!

For 1951, Chrysler has developed for you more basic advances in motor car value than any new car line has offered in years!

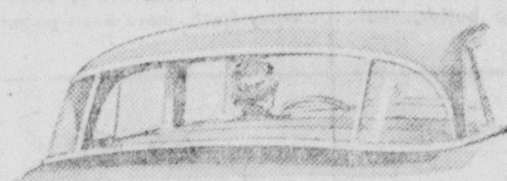

Whether you expect to own one this year or not... you owe yourself a turn at the wheel of a new Chrysler for 1951. Here is brilliant new style... and new basic engineering, too, with over 70 new features and improvements. Here is progress in comfort and performance so bold and so new you will feel its impact in America's motor cars for years to come. Since Chrysler first introduced high-compression performance in 1924, it has been Chrysler tradition to bring you the good things first... to strike out in new paths and open new standards of what you can expect in a motor car. Here, for 1951, is one of the *great* Chrysler cars. See all these exciting new motoring wonders tomorrow at your Chrysler dealer's—America's newest new car is now on display:

NOW ON DISPLAY

WINDSOR 4-DOOR SEDAN

Gracious new Beauty, to stay new for years!

Stunning new lines... rich new interiors... Clearbac full-vision rear windows... and remember, your Chrysler's baked-on enamel finish is the all-round toughest, most durable automobile finish known!

New Oriflow Ride, unequalled in smoothness!

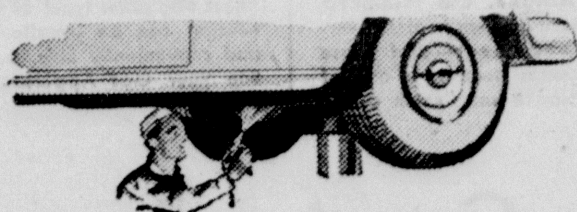

On every Chrysler for '51, Chrysler presents the amazing new Oriflow shock absorber... it has over twice the shock-absorbing power of any other shock absorber on any other car!

New FirePower Engine, matchless in Power!

Here is Chrysler's revolutionary new Hemispherical Combustion Chamber... engineering secret of FirePower... heart of the most powerful, most efficient, best-constructed engine ever put in an automobile. 180 horsepower. Will outperform any other engine on the road today, with ease. The only engine design that can give full combustion, full compression, full use and value from every drop of fuel.

New Chrysler-built value throughout your new car!

Chassis undercoating at no extra cost... Safety Rims on every wheel... Superfinish engine parts... Safety Cushion dash... Cyclebond brake linings... Chrysler engineering skill means extra value all through your car!

COME SEE THE NEW  
**CHRYSLER**  
Best engineered car in the world!

## MAYSFIELD NEWS

Rev. Bennett Scott preached at the 11 o'clock hour Sunday. Rev. Scott introduced the new pastor, Rev. Slimp of Waco at the 7 o'clock service who gave the evening lesson. Rev. Scott has been pastor for the local church two and a half years.

Lovelace Jamison and wife of Waco were guests in the J. D. Martin home Sunday. Mr. and Mrs. Baily Jones of Jones Prairie were also guests in the Martin home.

Miss Debra Weems of Houston visited home folks Sunday.

The WSCS met with Mrs. Bell Tyson Monday afternoon at 2 o'clock.

The women of the church met with Mrs. Fred Jackson at 2:00 p. m. Monday.

Mrs. John Thweatt visited Mrs. Plez Creekmore of Lampasas last week. They also visited in the home of Mrs. Paul Kieke at Austin.

Mrs. Jewel Dodson has returned home after being ill in St. Edward Hospital.

Mr. and Mrs. Tommie Gleason of Freeport visited home folks the past week end.

The Maysfield School was closed the past week due to bad weather.

Clay Phipps is employed in Freeport. Friday.

Donald Thweatt visited home folks last week.

Bob Newton of Austin visited home folks Friday.

Kenneth Thweatt visited homefolks last week.

Norton Scott, son of Rev. B. N. Scott former pastor here has been in Dallas Hospital the past ten days. Mr. and Mrs. Billy Wise of South Texas visited in the home of Mr and Mrs. Jess Wise.

Mr. and Mrs. John McClellan and family and Mrs. John Thweatt visited in the home of Mr. and Mrs. Jimmie Thweatt of Hearne. Mr. and Mrs. Thweatt recently moved to Hearne.

Mrs. Laura Cook is improving in a Cameron hospital.

Mrs. Ruby Massengale visited Mr. and Mrs. Robert Self of Gause last week.

Mr. and Mrs. Sherwood Cobb are the happy parents of a baby son.

## BELMENA NEWS

By JOYCE WILKINSON

Mrs. John Thweatt and Mrs. Roy Newton visited in the F. Bryant and Jesse Hickman home Sunday afternoon.

Mr. and Mrs. Willie Phipps had as week end guests, Mr. and Mrs. Murrell Hyde and little son, Gary, Mr. and Mrs. Thomas Hickman and children, Mr. and Mrs. Rush Price and daughters and Gene Phipps.

Friends of Mrs. Jewel Dodson will be happy to learn she has returned home after being ill and in the St. Edward Hospital the past two weeks.

Mr. and Mrs. Sam Harwell had as guests their daughter, Ethel Mae and family from Austin over the week end.

Misses Marilee Hughes and Joy Thweatt spent Friday night with Kay Story.

Friends of Ernest Harwell will be glad to know he is much improved after having a case of measles. He will be back in school soon.

Clay Phipps spent the week end at his home here. He is employed at Freeport.

Mrs. Bill Thweatt and Mrs. Clay Phipps spent Thursday with Mrs. Vina White.

Mr. and Mrs. Milton Weems are happy grandparents again. Mr. and Mrs. Carl Weems have a new baby son.

# Fatherless Draft And 18's Is Asked

WASHINGTON, Feb. 5.— Selective Service Director Lewis B. Hershey said Monday an order awaiting approval would remove the draft exemption of 220,000 childless married men who are not veterans.

And he added, he sees no reason "whatever" why physical and mental standards also should not be lowered to tap 150,000 to 250,000 more men, now deferred.

Both these groups would be in the 19 to 26 age group covered by the present draft law.

But Hershey, testifying before the House armed services committee, said these steps still would not meet the nation's defense manpower needs. He stuck to his guns in favor of an administration bill lowering the draft age to 18-year-olds until the draft of the 19-to-26 group is tightened.

Committeemen suggested to Hershey Monday two additional steps in this tightening process: Drafting of National guardsmen, and a stricter policy in deferring "essential" industrial and agricultural workers.

Hershey told the committee an order to draft childless married men aged 19 to 26 had been prepared and turned over to the defense manpower agencies, where he is virtually certain it will be approved.

The step also requires an executive order by President Truman. Chances for the order would be strong if his manpower chiefs indorse it. No date was indicated.

The order would not apply to married men with more than one dependent. The law itself exempts all war veterans.

The armed services committee has been holding hearings for two weeks on the bill to draft 18-year-olds.

Chairman Vinson declared to Hershey: "There are 137,186 in the National Guard and Active Reserve units eligible for duty. They should be subject to call by the draft board." He noted that many guard units had not been ordered to active duty.

Vinson said some men are enlisting in the guard to dodge the draft. He suggested that veterans—not draft-eligible men—should comprise the guard.

# What Does Tax Levy Mean ?

Your ballot at Tuesday's election will read, "For Issuance of The Bonds and Levying of the Tax in Payment Thereof."

What does Levying a Tax Mean? It means to set aside sufficient tax money to pay for the Bonds issued.

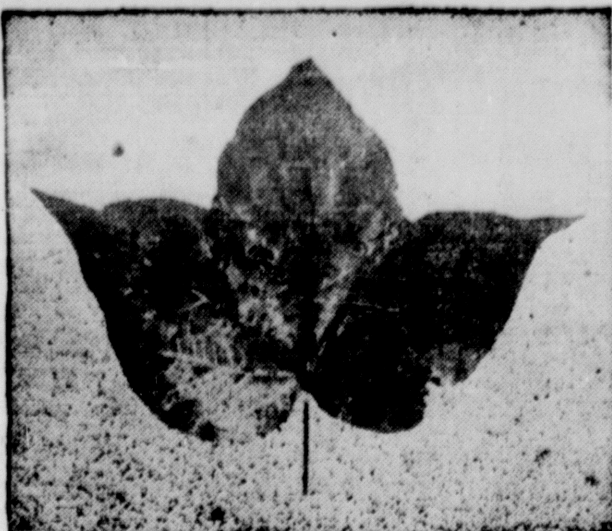

It does not mean increasing the amount of the Tax Collected.

Then how will the Bonds be paid ?

The City Council together with the Bonding Company have worked out schedule of payment which will make these payments come due when bonds which are now outstanding have been paid off. This money will then be used to pay off the new bonds.

However, when you vote in this bond election, you must vote to set aside (levy) this tax which is already being collected to pay off th new bonds you are voting. No increase in taxes will result if this bond issue carries.

Similar transactions are made by you every day. You cannot buy a new car until you finish paying for the electric refrigerator you are now paying for. You will then use this money to meet your car installments.

ANGULAR LEAF SPOT or bacterial blight can be stopped

Angular leaf spot, bacterial blight, boll rot, vein blight or black arm. These are all names for the same thing, and they all mean bad news for you as a cotton grower. The blight causes death of seedlings, defoliation or loss of leaves from the plant, and shedding or rotting of bolls. It all adds up to less cotton per acre.

As the name shows, it is caused by bacteria. The germs live in the seeds, and grow up in the cotton plant to cause various harmful results.

Clearly the way to wipe out this disease is to plant disease-free seeds. You can make sure that your cotton seeds do not carry the disease germs by killing the bacteria before you plant, using an organic mercury dust. You can do this on your own premises, or have it

done by the seed treating service of your local gin or seed supplier. The chemical costs less than 10¢ per acre. Other control methods include delinting of seeds with sulphuric acid or by hydrochloric acid gas. These are harder to apply, but also effective.

Because wind-blown rain spreads bacterial blight readily from one field to another, its control is a job that all the planters in an area should do together. Otherwise one field planted with untreated seed might re-infect all the others. It will pay every planter to stamp out bacterial blight in his fields. Planting seed that has been mercury dust-treated will not only reduce this disease, but will reduce seed decay and damping-off (sore shin) organisms, too.

did not see Mr. Crouch, who was crossing the street watching an approaching truck going west on main.

Mr. Crouch was immediately taken to Newton Memorial Hospital where he was treated for shock and bruises. He was reported in no serious danger early Wednesday morning.

Joe Richter, City Marshall was at the scene and reported the accident was unavoidable.

Herald Want Ads Pay Dividends.

# Mr. Crouch Slightly Injured In Car Accident

Charlie Crouch, 60, resident of Cameron was injured Tuesday night when he was struck by an automobile driven by Troy Clayton Mode of Burlington.

Young Mode was attempting to make the turn at the corner of Cheeves Dry Goods Co. to go east on Main and

# Faithful Dog Is Dead; Buried At Old Family Home

Bodoggie, eight year old dog belonging to Monte Angell, died from an attack of pneumonia, at the C. F. Angell home on North Fannin, January 31.

Bodoggie was well known and loved by the neighbors and performed many unusual feats, such as meeting the mail carrier and bringing the mail to the house and when the family lived on the farm his job was to bring in the firewood along with other household jobs.

While his master, Monte Angell was in the armed services during the war, Bodoggie would often refuse food for several days mourning for him.

The family took him back to the Angell farm Friday near Splawn and buried him where he had spent a happy life. Sadness prevails at the Angell home because each member of that family dearly loved their faithful dog.

# MYF Organization Elects Officers For Six Months

The Methodist Youth Fellowship organization met recently and elected officers for the ensuing six months.

Plans were made and discussed to make the local organization the best in the district.

Officers elected are as follows; John Henderson, president; Sara Esslinger, vice-president; Charles Kahler, secretary; Nancy Martin, treasurer; Max Shumate, publicity director; and Billie Nell Johnson, morning devotion.

Chairman of the different committees were also elected, and are as follows: recreation, Yvonne Wimberly; Community Service, Johnny Green; Worship and Evangelism, Jane Henderson; missions and world friendship, Ann Hinyard.

Friends of Mrs. Fay Kohutek were glad to see her up and at her Beauty Shop this week after being ill several days.

Charles Marvin and Edward Wayne Pratt, sons of Mr. and Mrs. Marvin Pratt are ill and patients in Newton Memorial Hospital.

Mrs. A. E. Sanders, secretary for the local water department is back at her duties this week. Mrs. Sanders underwent surgery at a Temple Hospital recently.

Henry Hefti of Maysfield visited in Cameron Monday.

Tour Made of ROP Breeders Over State; Leo Fuchs Attends

Leo Fuchs, owner of the Ideal Hatchery, made a tour with a group of men from the Extension Department at A & M College and the National Poultry Association last week.

Mr. Fuchs said during this tour the group of men visited a large number of the R O P Breeders over the State of Texas.

Sam Moore from Washington D. C. and who is Poultry Co-Ordinator of the National Poultry Improvement Program made an inspection of all the Improvement Plan and W. J. Moore, poultry specialist from the Extension or of Texas for the National Poultry breeders.

James R. Grubbs, poultry supervi- department also made the tour.

William Michalka also representing the Ideal Poultry Farm was among the group and the following places and Breeders were visited: A. H. Caraway Farm at DeLeon; M. Johnson Farm at Bowie; The Brady Farm at Denison; Herbert Bells at Dublin and the Ideal Poultry Farm.

There are nine White Leghorn R O P Breeders in the state of Texas and plans to improve conditions beneficial to the breeders were discussed on the different farms. The Ideal Poultry Farm, four miles west of Cameron is one of the best in the State and much credit is due Mr. Fuchs and his employees in the progress they have made during the past fifteen years as leaders in their field of business.

Bond Election Is Discussed At Rotary Club Meeting

The Cameron Rotary Club had an unusually interesting meeting at the Wednesday Luncheon January 31.

John C. Andres, program Chairman, discussed the coming bond election and brought about in his talk that the election to vote bonds for the purchase of the right-of-way on Highways 36 and 190 was not a political matter but an election for the progress for the city of Cameron. He is a member of the City Council.

Lester Williams, president of the First National Bank, discussed the bond election from a financial standpoint and after these two talks a period of questions and answers was held.

The Club started an attendance contest with the club being divided into two groups and at the end of the contest, the losers will have to treat the winners to a steak dinner.

SON TO THE JOCHECS

Mr. and Mrs. Frank Jochec announce the arrival of a son born at Newton Memorial Hospital Wednesday, January 31. The baby weighed five pounds and nine ounces and has been named, Raymond. The Jochecs have another son, Frankie Joe who is two and half years old. Mrs. Jochec was before her marriage Miss Annie Mae Zavrel. Grandparents are Mr. and Mrs. John Jochec, Jr., and Mr. and Mrs. V. L. Zavrel all of Cameron.

Little Change In Front Line Positions

TOKYO, Feb. 1, Allied troops renewed their 8-day-old offensive at dawn Thursday in Western Korea—and met no opposition at the outset.

The jumpoff followed a night of strange silence in which the Chinese Reds ceased entirely the counterattacks they had pressed at heavy loss on Wednesday.

"Officers said either the Chinese were holding back in preparation for a large-scale counterattack or else they had made local withdrawals farther into their main line of resistance as a result of heavy casualties suffered in Wednesday's bitter fighting."

At the beginning of Thursday's push, Puerto Rican and United States troops advanced unopposed deeper into the entrenchment-studded hills constituting the enemy's main defenses south of the Han River.

Allied planes spotted and attacked 400 enemy vehicles moving toward the front Wednesday night in the Western sector.

Allied troops mowed down Chinese Wednesday in hand-to-hand combat, roaring artillery barrages and blistering air strikes.

The Chinese rushed up reinforcements as the Allies attacked with grenades and bayonets in the pine clad hills north of Suwon and Kumyang-jang.

Twenty thousand Reds were spotted moving up in the Kumyangjag sector, one source said. Kumyangjang is twenty-three miles southeast of Seoul.

There was little change in front line positions Wednesday as the two great forces in Western Korea locked in flaming combat.

To meet the swelling Allied offensive, the Chinese also were said to have patched up their badly mauled Fiftieth Army south of Seoul. They brought in elements of their Thirty-ninth and Fortieth armies from the Seoul area.

The well-dug-in enemy refused to break under the great assault.

An estimated 3,500 enemy corpses were strewn over the thawing battlefield after the attacks.

On the east coast, United Nations warships led by the mighty United States Battleship Missouri pounded to pieces a second city on the Communist shore-line supply route in North Korea.

This second naval strike in two days was aimed at the town of Kosong, forty five miles north of the Thirty-eighth parallel, dividing line between Red North and Republican South Korea.

Stolen Car Found Here; Lampasas Youth Held In Belton Jail

Leroy Alexander, of Lampasas is in a Belton jail on a charge of theft of an automobile.

Mr. Alexander stole a 1946 ford automobile from a businessman in Killeen Saturday night and brought the car to Cameron where he abandoned it at Wilson Ledbetter park.

Joe Richter, City Marshall arrested the man Monday after Dick Harris, night watchman had given him a tip that he thought this man was the one in the car driving through the City Saturday night. Alexander admitted he stole the automobile and was taken to jail.

The car was not damaged and was returned to the owner.

The More He BREAKS The More He MAKES

Texas motorists, Texas highways and Texas taxpayers should be protected against the ONE PER CENTERS.

ONE PER CENTERS are truck combinations weighing, loaded, 20,000 pounds or more. Only one of every 100 vehicles registered in Texas pays a license fee for 20,000 pounds or more. FEWER than three out of every 1,000 are registered for more than 40,000 pounds.\*

Our highways should be SAFE for ALL the people— individuals, commercial users and the military alike.

Texas highway tax dollars should be conserved and used wisely. This can be done

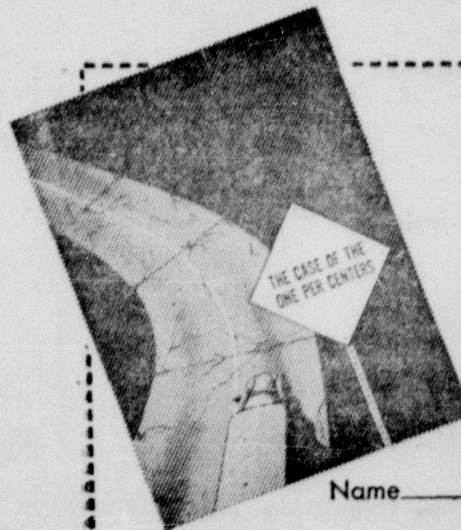

- (1) by limiting the weight (gross load and axle load) that may be transported legally by the ONE PER CENTERS and
- (2) by enforcing the law against those who persist in overloading.

\*"The Case of The One Per Centers," an article in The Texas Tax Journal, July-August, 1950

Texas highways are paid for by and belong to ALL THE PEOPLE. Highways adequate for 99% of Texas users— individual and commercial— can be constructed and maintained for about ONE-THIRD of the cost made necessary by the weight of the ONE PER CENTERS.\*

This is your problem. Send for your copy of the booklet, "THE CASE OF THE ONE PER CENTERS," which tells you, among other things, why

THE MORE PAVEMENT HE BREAKS, THE MORE PROFIT HE MAKES.

TEXAS RAILROADS P. O. Box 1023 Austin 66, Texas

## Foundation Appeals For More Funds

The March of Dimes Campaign begins its last week of the current drive as it has been extended through February 10 on account of the severe weather last week.

Workers began early Monday morning in an effort to raise more funds for the National Foundation Fund and a large amount will have to be raised this week in order to meet the \$2,500 quota in Milam County.

Several communities have reported good returns from community parties, basketball games, and other activities to raise funds during the campaign and around \$350.00 has been desisted in the bank.

Miss Myrtle Hinton, manager at the Cameron Hotel, who has devoted a considerable amount of time during the drive has raised a large percentage of the income that has already been received. Other programs are underway this week to raise more funds during the campaign.

A Canasta, Bridge and 42 Party is being planned for Saturday night February 10, at the Cameron Country Club, it was announced by Albert Collins, treasurer. Members are urged to attend this party as the proceeds will go for the Polio Fund.

Each member is asked to bring two to four guests. Directors and officers as well as the entire membership of the club were pleased over the opportunity to aid in the March of Dimes Drive by sponsoring this party. The party will begin at 8 P. M. and last until 12. The membership is urged to come and bring guests. The club members have always been very co-

operative in sponsoring such events that are helpful and beneficial to their community and they realize this is a good opportunity to raise funds for a worthy cause.

Individuals are urged to make their contributions in the next four days of the campaign Saturday February 10, the drive ends and funds are still badly needed by the Foundation. Last year the Foundation spent over \$8,000 on the four polio patients from this county and the county turned only \$380 from the campaign last year. By these figures anyone can see how Milam County is neglecting its responsibility.

Citizens, especially, are being urged to put forth a special effort in the remaining four days of the campaign. The National Fund is almost depleted and if the foundation is to continue its effort to combat polio it must have the cooperation of all.

### LONE STAR GAS CO.—

(Continued from page one)

from Lone Star. Fort Hood is one of the major consumers of the line.

The break came as one of the most prolonged and severe cold sieges in Lone Star's 41 years of operations was closing, during which the company broke all previous gas send-out records. For six days, ending at 7 a.m. on February 3, the send-out totaled 5,544,300,000 (billion) cubic feet. A new 24-hour record was established on January 29, with 979,800,000 (million) cubic feet and again on February 1, with 983,600,000 (million) cubic feet.

The series of emergency actions had its beginning at 5:20 a.m. simultaneously with a roar that heralded the break in the line. Otis Hobson, a distribution man at Temple, was awakened by the noise. He sensed the cause and immediately set out to notify the proper persons. He rushed from his home in 17-degree weather to tell Dave Kitchens, assistant distribution foreman at Temple. W. H. Driscoll, Temple distribution foreman began organizing repair crews under the direction of George Peck, Temple district manager.

Kitchens posted John Brown, assistant pipe line foreman at Temple, then went South of Temple to shut off the gas flow at one end of the break while Brown rushed to Troy to halt the flow from the other end of the broken segment. It was then 6:45 a.m. The distribution crews started digging at the break to gain time for the pipeline repair crews from Temple and Waco, who worked under the immediate supervision of Mr. Brown. Temple police patrol cars stood by one at the break and the other Troy valve. When the final bolt had been tightened on the line repair, the radio signaled for the gas to be turned back into the line. This was at 9:05 a.m. and from the point of the line pressure started a return to normal.

At 12 o'clock noon Lone Star removed the curtailment order. And by Saturday evening most of the customers at Thorndale, Temple, Belton and Killen were also back to normal consumption, after Lone Star went from house to house to turn on individual customer meters.

When Mr. Rowland received word of the break shortly after it occurred, he called on radio stations at Waco, Temple, Taylor, and Austin to broadcast the appeal for voluntary curtailment of gas "short of human suffering." He remained in Waco to direct operations throughout the area and the pipeline operations were in charge of Eldon Glenn, District pipeline foreman at Waco, assisted by Pete Lucas and Mr. Brown, assistant foreman.

At Temple, curtailment appeals were also made from four Roberts Sound Service cars patrolling the streets. Mr. Rowland notified the Lone Star dispatching headquarters in Dal-

**SHOWCASE ON WHEELS**—The More Power to America Special, first train of its kind in industrial history, contains almost a quarter-mile of exhibits covering the production, distribution and industrial use of electric power. Sponsored by General Electric's Apparatus Department, the 10-car streamliner will visit 150 industrial centers during a 30,000-mile nationwide tour.

### HOTEL WINDOW FALL—

advertising and editorial departments during his student days he worked in the of the Waco News-Tribune.

Mr. Kendall married Miss Sarah Dossett, daughter of the late Mr. and Mrs. A. J. Dossett, in 1931. He joined the faculty at Hill the same year and had been on that staff continuously since except for four years spent in the U. S. Navy during World War II.

Mr. and Mrs. Kendall and their children visited in Waco and Cameron regularly and were widely known in both communities.

Surviving Mr. Kendall are his widow, three daughters, Miss Rosa Drane Kendall, Miss Sally Kendall, a student at St. Catherine's School, Richmond, Va., and Miss Frances Kendall; two aunts, Mrs. Charles C. Irvine, 2214 Colonial and Mrs. E. Reid, Baltimore, Md.

Funeral services will be held at Christ Church in Pottstown, Pa., at 2:00 P. M. Thursday, February 8, after which the remains will be conveyed to Philadelphia for cremation. At a later date final rites will be held at Oak Wood Cemetery in Waco.

The family has requested that no flowers be sent.

## Daily Prayer Service At Methodist Church

A series of prayer services began at the First Methodist church Monday, February 5.

These services will be held each evening through Thursday, February 8 from 5:30 to 6:30 p. m.

The prayer services are in preparation for the World Day of prayer Friday, February 9 to be held at the First Christian church.

All denominations are invited to attend these prayer services each evening and Friday.

ANY MAKE RADIO repaired. Call 104. PARMA RADIO SERVICE.

## Bonds Important To City and County

Take your highway road map of the great State of Texas and carefully trace the routes of Highway 77, 190 and 36. You will see that these three important highways cross in Cameron, you will also find that these important highways traverse the great State from North to South, West to East and North-West to South-East. Highways 190 and 36, carry the vast production of the West Texas cotton fields, oats and wheat and oil to the ports of the Gulf, and return finished products to this great territory of production. Highway 77 as we all know is one of the most important highways of the nation, traversing the United States from Canada to Mexico City.

Now go out on the above numbered highways at anytime and ask one of the hundreds of truck drivers why these highways don't carry more of the commerce of Texas. They will tell you—"it is because the roads in Milam County are almost impassable."

The Commissioners Court of Milam County and the State Highway Department of Texas have gone as far as they can to correct these defects in our highway system, and now it is left up to Cameron to provide the right-of-way for the missing link in this highway system.

You did your part in releasing thousands of dollars to be spent by the State and National government on highways of Milam County.

You will make Cameron the hub of a first class highway system of this county, that will bring more thousands of dollars in trade to the Cameron merchants trade that is now going to Temple, Waco, Hearne, Bryan, Taylor and other towns of counties bordering Milam County.

You will keep the hundreds of heavy trucks off our streets daily, these trucks annually do thousands of dollars damage to our streets.

The building of this highway on the route proposed will not in anyway hurt the business of a single merchant in Cameron. You build your business by the construction of highways and

roads that make it possible for trade to come to your business. A business in Cameron could never be built on the thru traffic on our highways, it is much better to get this traffic away from our business district and thus give our normal trade the use of our streets.

The voters of Cameron must remember this: the State Highway Department has, after months of study selected this route thru Cameron. The Highway Department will build and maintain this important highway. We will have a new and important street through the west section of Cameron, thus adding much to the value of property in this part of town.

REMEMBER THIS, your City Council has told you that the passage of this Bond Issue will not increase your taxes one cent. The same old crowd fights every progressive move in Cameron has spread the false information that your taxes will be even doubled if this is passed. The same old story that was used in the Water Plant campaign, but it did not work out. Don't believe any such false rumors.
